# This is Musti Group

Musti Group is the leading Nordic pet care specialist operating in Finland, Sweden and Norway, and from 2024 onwards also in the Baltics. Our mission is to make the life of pets and their parents easier, safer and more fun throughout the entire lifespan of the pet. We want to be a full-service product provider and operator for our customers – both physically and digitally. We believe that a full-service ecosystem offers a unique value proposition that enhances and strengthens strong customer relationships and sets us apart from our competitors.

Musti Group's net sales were EUR 561 million in the financial year 2024 (15 months). At the end of the financial year 2024, the company had 2,178 employees, 1.9 million customers and 415 stores.

Flybird Holding, an investor consortium between the Portuguese Sonae Group and Musti executives, acquired a majority stake in Musti Group in a transaction completed in the first quarter of 2024. As a result, Musti Group entered a new strategic phase of international and sustainable growth.

In November 2024, Musti Group acquired the Estonian Pet City and Pet City Clinic, expanding its operations into the Baltic countries: Estonia, Latvia, and Lithuania. Pet City has 46 stores, 16 veterinary clinics and a comprehensive online shop in the Baltic region.

#### 29 November 2023

Flybird Holding made a public cash tender offer to acquire Musti Group. Flybird Holding is an investor consortium owned by the Sonae Group, headquartered in Portugal, and Musti executives. The public tender offer was completed during the first quarter of 2024, resulting in Musti Group gaining a new majority shareholder and entering a new strategic phase focused on international and sustainable growth. Additionally, the store network expanded with eight new stores.

#### 30 July 2024

The business environment continued to be challenging during the third quarter, and investments proceeded: Musti opened six new stores and implemented targeted pricing and campaign activities. Gross margin decreased to 43.3% as a result. The growth in net sales was driven by a 7.4% in the online business.

➔ Read more

#### 12 April 2024

The Extraordinary General Meeting confirmed that the number of members of the Board of Directors would be five and elected Maria Cláudia Teixeira de Azevedo, João Pedro Magalhães da Silva Torres Dolores, and João Nonell Günther Amaral as new members. Jeffrey David and Johan Dettel were re-elected as members. It was also decided that the financial year of Musti Group would be changed to the calendar year, starting from January 1, 2025.

→ Read more

#### 30 April 2024

Net sales in the second quarter increased to EUR 107.2 million. Growth was supported by the expansion of the store network and the strengthening online business, which accounted for over a quarter of total sales. Musti Group acquired one franchise store, and four franchise stores left the chain. Non-recurring cost items had a significant negative impact on operating cash flow. The costs were mainly related to the public tender offer.

➔ Read more

#### 7 October 2024

Musti Group acquired Estonian Pet City. Pet City operates 46 retail stores and 16 veterinary clinics in the Baltic countries including online business operating throughout the Baltic region. The store network consists of 25 stores in Estonia, 13 in Latvia and eight in Lithuania. There are eight veterinary clinics in Estonia, four in Latvia, and four in Lithuania.

➔ Read more

#### 7 November 2024

In its interim report, Musti Group reported continued growth in its customer and market share during the fourth quarter. The increase was primarily driven by solid online sales. Sweden and Norway continued to perform strongly, while Finland was impacted by lower consumer confidence. One company-operated store was added to the network.

#### CASE

# Pet illness caused by high glycoalkaloid content in potatoes

In early November 2023, the Musti Group recalled two grain-free products from the SMAAK range due to the illnesses of several pets. Musti Group worked closely with the Food Authority and the products were subjected to comprehensive microbiological and chemical analyses.

According to the Finnish Food Authority's opinion, the most likely cause of the severe symptoms in pets was the combination of glycoalkaloids in the potato raw material and the amount of potato raw material used. The products were declared unfit for animal feed by the Food Authority and were destroyed. Cooperation with the company supplying the potato raw material was immediately terminated. In addition, the Musti Group stopped manufacturing products made with the recipes in question. The Musti Group carried out a comprehensive review of its activities and took measures to prevent a similar incident from occurring in the future.

#### Ensuring product safety

Quality and product safety in pet food production have been and will continue to be the cornerstone of our operations. At the SMAAK feed production facility, product safety is based on a certified Food Safety Management System (FSSC 22000) and is audited annually both by a third party and through our own internal audits. The product safety system is risk-based and is based on the analysis of hazards (biological, chemical and physical), their prevention and the management of deviations in accordance with the Hazard Analysis Critical Control Points (HACCP) principles. Musti Group carries out analyses on both raw materials and finished products to ensure that they are safe in accordance with the requirements of feed legislation. Musti Group itself checks the glycoalkaloid level of every batch of potatoes that arrives at our factory.

Musti Group has also taken other measures related to raw material sourcing and product formulation. Resources in raw material sourcing and quality assurance have been increased and the raw material risk analysis has been refined in the product development phase. In order to ensure the suitability of the raw materials used in feeds and the quantities used, Musti Group, in cooperation with its own experts and an external expert, carried out a comprehensive product recipe audit. The audit took into account risk factors from an animal health and nutrition point of view.

#### Potato as a raw material in pet food

Glycoalkaloids are natural plant toxins that act as a defence mechanism against diseases and pests. For example, glycoalkaloids are formed when potatoes start to turn green. It can also cause symptoms of poisoning in humans, such as stomach or intestinal pain, diarrhoea, vomiting and nervous system symptoms. There is currently no scientific evidence on the effects of glycoalkaloids on animals.

Potatoes in pet foods are mainly a source of energy and carbohydrates. The use of carbohydrates as a raw material in pet

food allows pets to have a low-fat and palatable diet. Potato starch also plays an important functional role in the dry food production process as without starch, traditional dry food cannot be produced. The starch acts like glue in the manufacture of the kibble, holding it together and giving it its characteristic texture.

The Musti Group has not stopped using potatoes in pet food, but the product formulation has been developed to maintain glycoalkaloid levels at safe levels. In addition, other sources of starch have been sought for the products.

#### Handling customer complaints and gaining customer trust

Musti Group has dealt with a huge amount of customer feedback and worked with the insurance company to address customer claims. Intention of Musti Group has been to cover all claims handled by our insurance company. Customer cases and information are between the insurance company and the customer.

Musti Group has apologised to all its customers, and especially to those whose pets became ill. This should not have happened. Musti Group will do everything it can to restore the trust of their customers. The incident will also certainly serve as a wake-up call for the pet food industry as a whole. Hopefully there will be more scientific research to provide the basis for the development of legislation to regulate glycoalkaloid levels in feed, for example.

# **CEO** review

Year 2024 was another transformative year for Musti in a tough trading environment. We grew market share and increased the number of pet parents we support in our historic markets and extended our reach into the Baltics increasing our growth opportunity for 2025 and beyond. While the team and I are pleased with these achievements, we are disappointed that it culminated in our first ever contraction in year over year earnings, and we are confident that the actions we have taken during the year will ensure that this is a once off occurrence.

Early in the year, Sonae successfully completed a tender offer for Musti, leading to them becoming our largest shareholder owning approximately 81% and they have warmly welcomed us into the Sonae group. With support from Sonae, we have and will continue to invest in our current and new markets enabling Musti to enhance and evolve our commitment to communities and their pet parents.

Pet Parenting experienced softer demand during the year yet as consumers felt the pinch from the combination of higher interest rates and inflation. We strongly believe this softness is temporary, and growth will pick up during 2025 due to returning consumer confidence.

Our sales continued to grow with moderate pace despite the softer consumer confidence and shows the resilience of the pet care sector. Our increase in the number of pet parents supported and market share highlights the strength of our ecosystem and the relevance our ever-evolving service and product offering. This enables us to attract an increasing share of new puppy and kitten customers and support them and their new family member with valuable advice and support, enhancing our market share gains.

Food and consumables, the majority of our sales, remain strong pillars and the growth of our online sales share to 24% shows the

relevance of convenience. We believe that our online offering, its convenience, short delivery time and broad variety of quality products will continue to add value to our customers and will lead to further market share gains.

We continue to invest in our pet food factory in Lieto Finland. This investment has increased our commitment to sustainably produced products. The factory combines the ability to respond to the increased demand for locally and sustainably produced products and the opportunity to increase our profitability by insourcing the production of our own brands.

Musti acquired Pet City in November 2024 and the integration of the businesses is ongoing. Pet City operates in all Baltic countries in both the pet retail and vet segments. We acquired 62 stores and clinics which brings the Musti network to 415 outlets in 6 countries. Our ability to combine a growing portfolio of products, services, and advice via convenient propositions for Pet Parents is unique and will be an enabler of future success.

Our primary focus is and always will be to provide the best possible advice and support to our Pet Parent customers. We recognize that without their trust and loyalty we would not be where we are today.

To our almost 2,200 Musti Pack members - on behalf of our shareholders, our Board, our Group management team and myself, thank you for your tireless commitment to support our customers and their pets.

#### David Rönnberg CEO

# Musti's Direction

Strategy	10
Musti Group ecosystem	12
Countries of operation	13

# Strategy

Our strategy is to continue developing the Musti concept and value proposition in the Nordic markets to serve existing customers better and to acquire new customers, with focus on Pet Parents.

#### Winning new customers

Musti Group is well positioned to continue our track record of winning new customers from the large and growing Nordic pool of dogs and cats.

Success in new customer acquisition is a key driver of continued market share gain across our Nordic markets. Acquisition of puppies and kittens is especially important from a lifetime value perspective. This is supported by our concept, our leading brand awareness, and customer focus. The underlying pet parenting trend, favoring Musti Group's concept, continues strong.

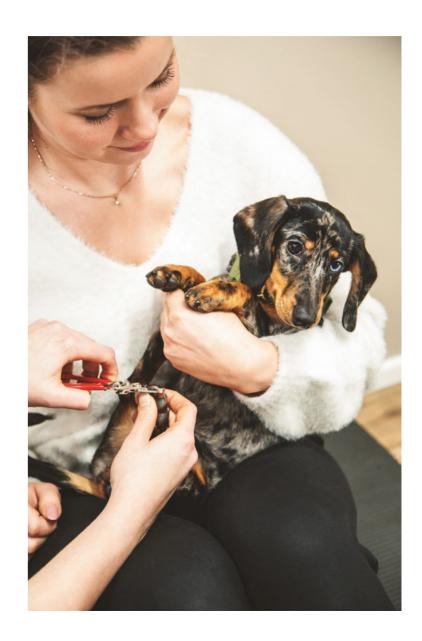

#### Grow share of wallet

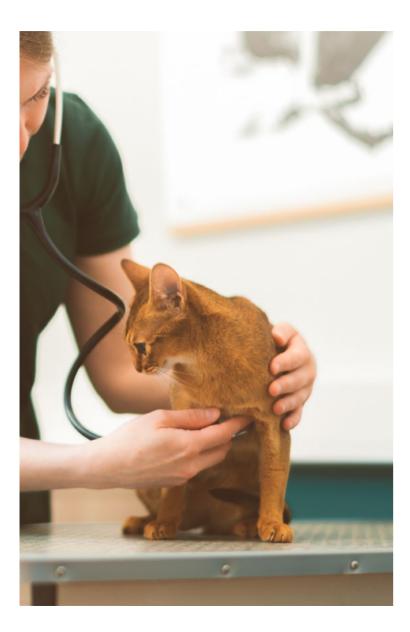

Growing the share of wallet within our customers is a clear opportunity for Musti Group. To deepen the engagement of our customers, Musti is developing an ecosystem approach for Nordic pet parents with an 'All you need is Musti' mentality across the pet lifecycle. Supported by data we are able to customize our value proposition to individual needs of Nordic pets and their parents.

Rolling 12 months average spend per loyal customer increased to EUR 209.1 in financial year 2024 (EUR 206.4 on 30 September 2023).

### Expand store network and number of service points

Musti Group entered the Baltic markets in November 2024 by acquisition of the shares of Pet City OÜ (including its subsidiaries Pet City UAB, Pet City SIA and Pet City Klinika UAB) and Eesti Veterinaaria Kliinikum OÜ. Pet City operates 46 retail stores and 16 veterinary clinics in the Baltic countries including an e-commerce platform operating throughout the Baltic region. In addition, we continue rolling out further stores to win new customers through

our strong concept and increased convenience, with local presence in Nordic communities enabling customers to switch to the Musti Group platform. This is complemented by a strong online offering, representing 24.3% (23.0%) of sales.

Musti Group has the largest pet specialty store footprint in the Nordic countries. Expansion investments come with long term benefits, as the number of directly operated stores has increased from 231 end of financial year 2020 to 415 after financial year 2024.

Along with expanding the store network, Musti Group has invested into adding services to our network.

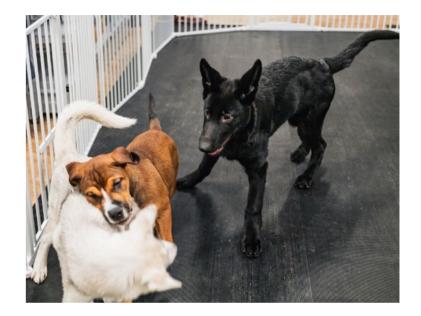

### Focusing on driving gross margins through increased O&E share and leveraging scale

A core element of Musti Group's strategy is developing the offering of own and exclusive products sold only in Musti Group's channels. This comes with three main benefits of the uniqueness of our offering, loyalty especially in food and other consumable categories, and higher gross margin profile.

Musti Group has strong historical track record in driving gross margin improvement. Own and exclusive brands are a cornerstone of our high gross margins as these brands typically carry 10–15%-points higher margins compared to global brands.

In financial year 2024, gross margin decreased to 44.1% (45.7%) This was impacted by the continuously weak consumer climate, due to targeted investment in price and campaign activities and inflation.

Share of sales of own and exclusive brands was 51.5% (52.4%) during the year.

### Leveraging broadly invested platform to drive operating leverage and scale benefits

Significant investments to Musti Group's IT, digital platforms, warehouse and production facility are expected to drive increased operating leverage and scale benefits to further increase Musti Group's profitability as topline growth is expected to continue while fixed costs may be spread across larger net sales.

# **Countries of operation**

#### **Finland**

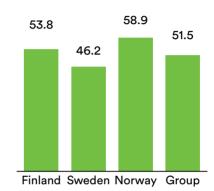

Finland is Musti Group's most mature market, where Musti Group is the market leader with a nationwide network. A vast majority of Finnish pet parents are within convenient reach of a Musti store complemented by an omni-channel offering with fast deliveries. Musti Group's brands in Finland are Musti ja Mirri (store, services and omnichannel) and Peten Koiratarvike (online focus complemented by select stores).

In Finland, our goal is to continuously optimize our footprint and offering to best meet consumer needs, and to invest in maintaining our market leading omnichannel offering.

#### Sweden

Musti Group has been present in Sweden since 2010 and is today the Swedish market leader with 133 stores complemented by omnichannel through the brands Arken Zoo (store, omnichannel and veterinary clinics) and VetZoo (online focus).

In Sweden, our focus is on continued customer acquisition and network expansion as we see further room to increase our reach in the larger Swedish market when compared to our more mature Finnish benchmark.

Own & Exclusive share of net sales. %

Online share of net sales, %

#### Norway

Musti Group entered Norway in late 2016 and has reached market leadership with presence in 83 local communities complemented by our omnichannel offering. Our brands in Norway are Musti (store, services and omnichannel) and VetZoo (online).

Norway remains a more fragmented market where Musti Group holds a market leading position, yet clearly lower market share compared to Finland and Sweden. Therefore our focus is to continue on the path of market share gains through continued customer acquisition supported by further store roll-out into more communities, and on increasing country profitability as the network matures.

#### Estonia

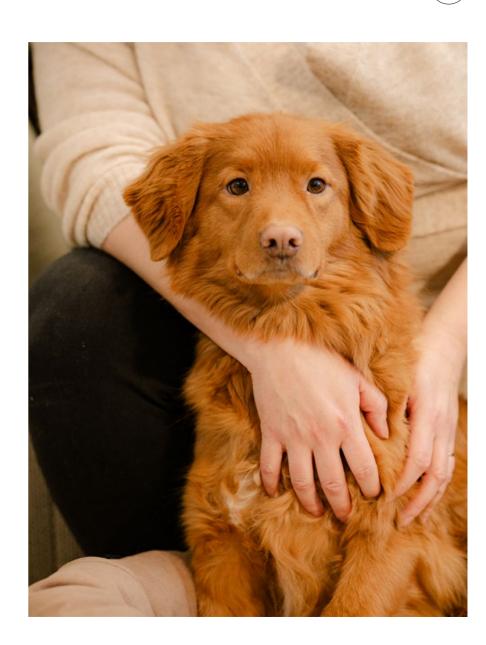

Musti Group expanded into Estonia in late 2024 with the acquisition of Pet City, a pet supply chain operating in the Baltic countries. In Estonia, the Pet City network includes 25 retail stores and eight veterinary clinics.

#### Latvia

Musti Group expanded into Latvia in late 2024 with the acquisition of Pet City, a pet supply chain operating in the Baltic countries. In Latvia, the Pet City network includes 13 retail stores and four veterinary clinics.

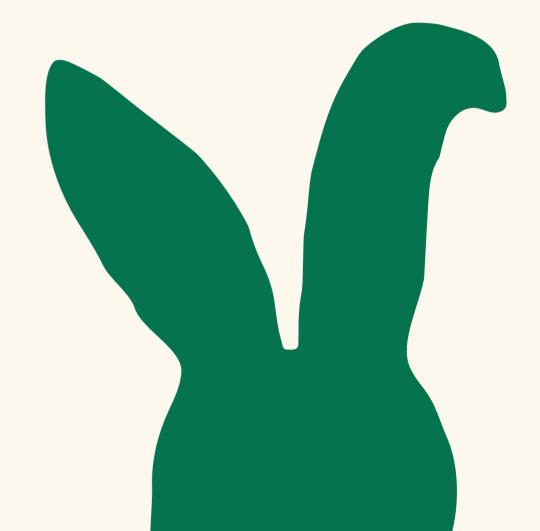

#### Lithuania

Musti Group expanded into Lithuania in late 2024 with the acquisition of Pet City, a pet supply chain operating in the Baltic countries. In Lithuania, the Pet City network includes eight retail stores and four veterinary clinics.

# **Corporate Governance Statement**

#### I. Introduction

Musti Group plc ('Musti Group' or 'Company') is committed to good corporate governance through compliance with laws and regulations in all its operations and to implementing recommendations for good corporate governance. The governance of the Musti Group complies with the Company's Articles of Association, Finnish and EU laws and regulations, in particular the Finnish Companies Act, the Accounting Act, securities markets regulations and other decrees and regulations relevant to the governance of a public limited liability company. Furthermore, Musti Group's operations are guided internal operating principles.

In its governance, Musti Group also complies with the Finnish Corporate Governance Code for listed companies ('Code') issued by the Securities Market Association in 2025. Musti Group has not deviated from the recommendations of the Code except for the Recommendation 10 as the composition of the Board of Directors departs from such Recommendation, which states that at least two (2) directors who are independent of the Company shall also be independent of the significant shareholders of the Company.

The Code is available on the Internet at www.cgfinland.fi.

This Corporate Governance Statement has been prepared in accordance with the recommendations of the Code. The Audit Committee of Musti Group's Board of Directors has reviewed this Corporate Governance Statement. The Company's external auditor has reviewed that this Corporate Governance Statement has been issued and that the description of the main features of the internal control and risk management systems pertaining to the financial reporting process is consistent with the financial statements.

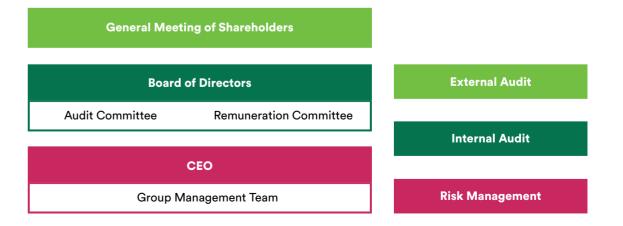

#### II. Descriptions concerning corporate governance

Musti Group is a company founded in Finland and is registered in the Finnish Trade Register maintained by the Finnish Patent and Registration Office as a public limited liability company. Musti Group operates under Finnish law and is listed on the official list of Nasdag Helsinki.

The group consists of its parent company Musti Group plc and several group companies in Finland, Sweden, Norway, Estonia, Latvia and Lithuania. The parent company is responsible for the management and governance of the Group, and the group companies are responsible for operative actions. Musti Group's reporting segment structure is based on a geographical division. On this basis, Finland, Sweden and Norway have been designated as their own operating segments and the Baltic countries are reported under the segment called New Markets.

The management and control of Musti Group is divided between the General Meeting of shareholders, the Board of Directors, and the Chief Executive Officer ("CEO"). General Meeting of the shareholders is the ultimate decision-making authority. Every shareholder has the right to attend the General Meeting and participate in decision making by voting. Each share entitles the holder to one vote. Decisions at the General Meetings are primarily made by a simple majority of votes, except in certain cases specified by the Finnish Companies Act (e.g. amending the Articles of Association).

#### Musti Group governance bodies

#### **1. General Meeting**

A General Meeting is convened by the Board of Directors. According to the Articles of Association, the Annual General Meeting ("AGM") shall be held in Helsinki within six months from the close of the financial year on a date decided by the Board of Directors. At the Annual General Meeting, the shareholders resolve on the adoption of the financial statements, decide on the distribution of dividend, elect the members of the Board of Directors and the external auditor, and determine their remuneration, or decide on any other legally required matter, such as amendments to the Articles of Association if necessary.

Annual general meeting was held on 31 January 2024. Shareholders were also able to exercise their voting rights by voting in advance or by way of proxy representation. Extraordinary general meeting was held on 12 April 2024 in Helsinki. Shareholders were also able to exercise their voting rights by voting in advance or by way of proxy representation.

The materials of the general meetings are available on Musti Group's website.

#### **2. Board of Directors**

#### Composition, diversity and shareholding of the Board of Directors

According to Musti Group's Articles of Association, the Board of Directors consists of a minimum of 3 and a maximum of 10 ordinary members. The term of office of the Board of Directors expires at the end of the first Annual General Meeting of shareholders following the election. The Board of Directors prepares the proposal for the composition of the Board of Directors to the General Meeting of shareholders based on the discussions between the major shareholders and the Chair of the Board of Directors.

When preparing the proposal for the composition of the Board of Directors, the Board of Directors considers the Company's business requirements and development and the Company's strategy. The main objective is to ensure that the composition of the Board of Directors supports the Company's business operations and strategy in the best possible way. Diversity of the Board of Directors supports reaching this objective. Diversity is considered from different angles. The most relevant factors for the Company are the members' mutually complementary know-how, education, and experience in different fields of business as well as the personal attributes of the members. Musti Group aims to have both genders equally represented in the Board, and to have members with experience from different

geographical areas. The progress in achieving the objectives is reviewed regularly. A candidate elected to the Board of Directors must have the required competence for the position, and a sufficient amount of time for attending to the duties of the position.

The AGM re-elected Jeffrey David, Ingrid Jonasson Blank, Johan Dettel, Ilkka Laurila and Inka Mero as members of the Board of Directors. In its organizing meeting on 31 January 2024, the Board of Directors elected Jeffrey David as the Chair of the Board of Directors and Ingrid Jonasson Blank as the Vice Chair of the Board of Directors.

Extraordinary General Meeting, which was held on 12 April 2024 elected Maria Cláudia Teixeira de Azevedo, João Pedro Magalhães da Silva Torres Dolores and João Nonell Günther Amaral as new members, and re-elected Jeffrey David and Johan Dettel as members of the Board of Directors. The term of office of those current members of the Board of Directors of Musti who were not re-elected, ended upon the closing of the Extraordinary General Meeting. The Board of Directors of Musti Group Oyj elected Cláudia Azevedo as the Chair of the Board of Directors and Jeffrey David as the Vice Chair of the Board of Directors in its organizing meeting.

Composition and shareholdings of the Board of Directors on 31 December 2024:

Name	Year of Birth	Position	Member since	Attendance	Shareholding
Cláudia Azevedo	1970	Chair	2024	8/8	0

He is Member of the Board of Directors and executive committee of Sonae – SGPS, SA and Executive Member of the Board of Directors of Sonae Investment, BV, Sontel, BV ja Sonaecom, SGPS, SA. He is Non-Executive Member of the Board of Directors of NOS, SGPS, SA, MCRETAIL, SGPS, SA and Sonae Sierra, SGPS, SA. Mr. Dolores holds a degree in Economics, FEP from the University of Porto, Postgraduate Program degree in Business Management from New York University and MBA degree from London Business School. He is a citizen of Portugal.

#### **Evaluation of the independence of the Board of Directors**

It is the duty of the Board of Directors to evaluate the independence of its members. A majority of members of the Board of Directors must be independent of the Company. At least two members independent of the Company must also be independent of significant shareholders of the Company.

The Board members' independence has been evaluated based on the Corporate Governance Code issued by the Finnish Securities Market Association in 2025. According to the evaluation, all Board nominees are currently independent of the Company. However, none of the Board nominees are independent of the Company's significant shareholders. Jeffrey David and João Pedro Magalhães da Silva Torres Dolores are members of the Board of Directors, and Johan Dettel and João Nonell Günther Amaral deputy Board members, of Flybird Holding Oy, which is the Company's largest shareholder. In addition, Maria Cláudia Teixeira de Azevedo, João Pedro Magalhães da Silva Torres Dolores and João Nonell Günther Amaral are all executive directors of Board of Directors of Sonae, which is the Company's ultimate parent company.

The composition of the Board of Directors proposed above departs from Recommendation 10 of the Corporate Governance Code, which states that at least two (2) directors who are independent of the Company shall also be independent of the significant shareholders of the Company. Flybird Holding has executed a public tender offer for the Company and assessed that following the tender offer, it needs additional time to find appropriate candidates with the required expertise and experience who are also independent of the significant shareholders of the Company. Flybird Holding is actively seeking for at least two (2) additional candidates to supplement the composition for the Board of Directors of Musti. Such members are envisaged to be independent of both the Company and its significant shareholders.

#### Self-evaluation of the Board of Directors

The performance of the Board of Directors is evaluated annually. The results of the assessment are considered when preparing a proposal for a new composition for the Board of Directors. The self-assessment was conducted by way of a survey that was followed by a discussion among the member of the Board of Directors about the results and further actions.

#### **Duties of the Board of Directors**

In addition to the specific duties defined in Finnish Companies Act and the Company's Articles of Association, Musti Group's Board of Directors shall, among others:

- annually approve the Company's strategy, budget and business plan and supervise their execution
- arrange the control, supervision and audit of the Company's accounts and finances
- review and approve interim reports, financial statements, and the annual report
- define the Company's financial targets and dividend policy
- appoint and discharge from his/her duties the CEO and the group management team member
- resolve on the remuneration and incentives of the CEO and the group management team in accordance with the Company's remuneration policy
- steer the operations of the Company and supervise and monitor the CEO
- confirm the Group's organizational structure and decide on any material organizational changes
- decide on large and strategically significant investments, acquisitions, and divestments and on any other matters that are of material importance to Company
- annually assess the performance of the Board of Directors, including its activities and working methods, and its individual members;
- summon the General Meetings of Shareholders and prepare proposals on matters to be considered in the meetings and
- decide on the establishment of the communication strategy and related policy as well as the publication of important information concerning the Musti Group and its activities

During the financial year 2024, the Board of Directors paid particular attention to:

- execution of the public tender offer process for the company's shares (independent board members elected in the annual general meeting on 31 January 2024)
- monitoring the execution of the Company's growth strategy
- strengthening the Company's financing position
- development of the Company's sustainability strategy

#### **Committees of the Board of Directors**

The Board of Directors delegates some of its functions to the Audit Committee and Remuneration Committee. The Board of Directors appoints the chairs and members to the Committees from among its members.

Each Committee meets regularly and reports on its work to the Board. The Committees have no decision-making authority independent of the Board, except where expressly authorized by the Board.

#### **Audit Committee**

In its organizing meeting on 31 January 2024, the Board of Directors elected Ilkka Laurila as Chair and Ingrid Jonasson Blank and Inka Mero as members to the Audit Committee. In its organizing meeting following the extraordinary general meeting on 12 April 2024, the Board of Directors elected João Dolores as Chair and Johan Dettel as another member of the Audit Committee.

Audit Committee held seven meetings during the financial year. The attendance rate was 100%.

The responsibilities of the Audit Committee include, among other things:

- Monitoring the financial position of the Company
- Monitoring and assessing the financing and reporting system
- · Monitoring the reporting process of financial statements
- Monitoring the statutory audit of the financial statements and consolidated financial statements
- Preparing for the Board of Directors the proposal for resolution on the election of the auditor
- Monitoring and evaluating the independence of the statutory auditor and, in particular, the offering of services other than auditing services by the auditor
- Monitoring and assessing the efficiency of the Company's internal control, internal audit, compliance and risk management systems
- Reviewing the description of the main features of the internal control and risk management systems in relation to the financial reporting process, which is included in the Company's Corporate Governance Statement
- Reviewing the risk management principles, monitoring material risks and uncertainties, including but not limited to financial, funding, IT-security related risks as well as tax risks and principles
- Assessing the scope and quality of the internal audit, approving the internal audit plan and resourcing, and reviewing audit reports
- Monitoring and assessing legal compliance and business ethics compliance
- Establishment of principles concerning the monitoring and assessment of related party transactions
- Monitoring and assessing how agreements and other legal acts between the company and its related parties meet the requirements of the ordinary course of business and arm's length terms

#### **Remuneration Committee**

In its organizing meeting on 31 January 2024, the Board of Directors elected Johan Dettel as Chair of the Remuneration Committee and Jeffrey David and Ingrid Jonasson Blank as members to the Remuneration Committee. Following the extraordinary general meeting on 12 April 2024 Cláudia

Azevedo was elected as the Chair of the Remuneration Committee and Jeffrey David and João Günther Amaral were elected as members of the Remuneration Committee.

The Remuneration Committee did not meet during the fiscal year 2024.

The responsibilities of the Remuneration Committee are to prepare the following decisions for the Board of Directors to decide:

- prepare for the nomination of the CEO and his/her deputy
- review and prepare for the nominations of the members of group management team and other officers reporting to the CEO and
- from time-to-time review and prepare a proposal on the overall compensation policies applicable to the member of the group management team
- review and prepare a proposal to the Board of Directors on the compensation of the members of the group management team and other officers reporting to the CEO including each of the components thereof
- ensure that the members of the group management team are rewarded appropriately for their contributions to the Company's growth and profitability and that such compensation policies are aligned with the Company's business strategy, long-term financial success, and shareholder interests
- review and prepare a proposal to the Board of Directors on the Company's goals and objectives relevant to the compensation of the CEO
- evaluate the performance of the CEO in light of the above-referenced goals and objectives
- prepare a proposal to the Board of Directors on the compensation of the CEO (including its components thereof) based on the above-referenced evaluation and
- in determining the long-term incentive component of the CEO's compensation, the Committee should consider the Company's development and relative shareholder return, the value of similar incentive awards to CEOs at other companies comparable to the Company and awards given to the CEOs in past years
- review and prepare a recommendation to the Board of Directors on at least an annual basis evaluating the Company's compensation and other benefit plans, including incentive compensation and equity-based plans and programs
- review and prepare a recommendation to the Board of Directors on the granting of options, restricted stock, stock appreciation rights and other equity-based grants to the members of the Group management team consistent with the Company's incentive compensation plans and programs and compensation strategy and

- ensure that the Company's compensation structure is competitive and make recommendations as necessary
  prepare the Company's policy concerning the remuneration of the Company's Board of Directors, CEO, and possible deputy CEO ("Remuneration Policy") for the Board at least every four years
- prepare the Company's report concerning the remuneration of the Company's Board of Directors, CEO, and possible deputy CEO ("Remuneration Report")

#### 3. The CEO and Group Management Team

#### The CEO

The Board of Directors appoints the CEO and decides on the terms of the CEO's service. The Board of Directors approves the remuneration and incentives of the CEO and the group management team. The CEO is responsible for the supervision and control of the Company's day-to-day operations in accordance with the Finnish Companies Act, the Company's Code of Conduct and authorizations and guidelines issued by the Board of Directors.

David Rönnberg has acted as Company's Chief Executive Officer since 2017.

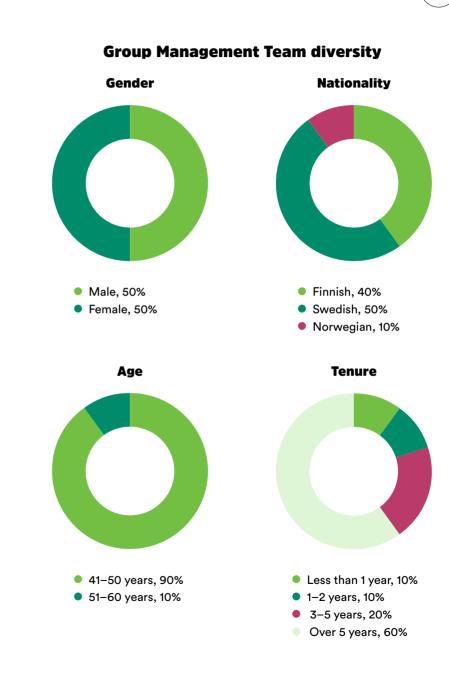

#### **Group Management Team**

The CEO leads the group management team's work and makes decisions pertaining to the operations in consultation with the group management team. Meetings are held weekly, and the focus is on strategic and operative monitoring and development.

#### **Composition and shareholding of the Group Management Team**

On 31 December 2024, the group management team of Musti Group comprised the following members:

Malin Nygren	1974	Chief Customer Officer	2019	0
Pamela Nelimarkka	1982	Chief Operating Officer	2022	0

## III. Descriptions of internal control procedures and the main features of risk management systems

Musti Group prepares consolidated financial statements and interim reports in accordance with the International Financial Reporting Standards, as adopted by the EU, the Finnish Securities Markets Act as well as the appropriate Finnish Financial Supervisory Authority Standards and Nasdaq Helsinki's rules. The Report of the Board of Directors of Musti Group and the parent company Musti Group plc's financial statements are prepared in accordance with the Finnish Accounting Act and the recommendations and guidelines of the Finnish Accounting Board.

Musti Group's financial reporting process is managed internally, and the process is supported by external service providers. The internal control and risk management systems and practices described in more detail below are designed to ensure that financial reporting concerning the Company as well as its group companies is reliable.

The group management team evaluates results of the segments based on net sales, adjusted EBITDA and adjusted EBITA. Events outside the ordinary course of business are treated as items affecting comparability and have been allocated to the segments. In all other respects monitoring of results by management corresponds with IFRS reporting.

It is the duty of the Company's Audit Committee to monitor the reporting process of financial statements reporting and to review with the external auditor the annual financial statements and interim reports before submission to the Board of Directors for final approval, as well as to review internal controls and monitor the effectiveness of the Company's procedures for internal control over financial reporting. In addition, the Audit Committee assesses principles related to internal controls and risk management of the Company's financial reporting processes, monitors and reviews the effectiveness of the Company's risk management system, including the risk profile of Musti Group, and makes such recommendations as the Committee considers desirable. The Company's Board of Directors reviews and approves the Company's interim reports, financial statements and annual reports.

#### **1. Internal control**

Internal control refers to measures and procedures aiming to ensure that the Company meets is goals and targets, the Group's resources are utilized economically and efficiently, risks relating to operations are managed appropriately and financial and other information is reliable and correct. In addition, internal control aims to ensure continuity of business operations and compliance with the Company's internal policies and processes, as well as with the requirements, legislation and regulations applied in the operating environment. Efficient internal control and risk management promote the Company's performance and reaching of targets, and they are a material part of Musti Group's corporate governance.

Musti Group's operating model of internal control and risk management related to financial reporting aims to provide sufficient assurance regarding the reliability of financial reporting and that the financial statements have been prepared in accordance with the applicable laws and regulations, accepted accounting principles (IFRS), and other requirements for listed companies. The principal components of internal control are control environment, risk assessment, control activities, communications, and monitoring. Musti Group has defined and documented internal control activities related to its business and reporting processes. Approval mechanisms, access rights, segregation of duties, authorizations, verifications, reconciliations, and follow-up of financial reporting are essential internal activities. The monitoring, development and communication related to internal controls is the responsibility of the CFO who regularly reports the results to the Audit Committee.

All employees of the Group must act according to the ethical principles determined in the Company's Code of Conduct. The principles are based on the ten principles of the UN Global Compact. The Company has committed to include these principles in all of its operations, company culture and strategy. In addition, Musti Group has committed to communicating the principles to its employees, owners, suppliers, and other partners.

The Group utilizes a whistleblowing reporting channel aiming to support compliance with laws and Musti Group's internal guidelines, policies, and values. Employees and other stakeholders may report suspected misconduct or non-compliance with corporate policies according to the whistleblowing procedure.

#### 2. Risk management

The Board of Directors has approved the principles of the risk management of the Company. The target of the Company's risk management is to collect information on and to review and manage opportunities, threats and risks arising from the Company's operations in order that the Company will reach its targets and carry out its operations without disruptions. As such, the risk management aims to promote for its own part implementation of the strategy, reaching of financial targets, satisfying customer proposition, capability to distribute dividends, utilization of responsible practices and business continuity.

The Company's risk management comprises risk management targets, risk management process and its implementation, monitoring and reporting. Risk management is systematic activity aiming to ensure appropriate identification, review, management, and monitoring of risks. It is a part of the Company's planning and governance process, decision-making, management, and operations, as well as control and reporting procedures. Risk management is implemented systematically, proactively, and comprehensively, and it covers all operations in the entire Group.

Risks are assessed and managed with a comprehensive approach based on the business. Implementation of review and management shall be implemented in a way that ensures that material risks are identified, assessed, managed, monitored, and reported as a part of the reporting based on the governance system and the business. In addition, risk management is developed continuously as a part the Company's operations.

Risk management is implemented according to the principles below:

- The management carries out a comprehensive risk review and updates the risk charts annually.
- The risk review comprises identification of risks, assessment of their relevance and planning of risk management activities. The group management team continuously monitors the execution of the activities
- Results of the risk review are reported to the Audit Committee. The Audit Committee addresses the
  most significant risks and measures to control them, as well as reviews the efficiency and operation
  of the risk management. The Audit Committee reports to the Board of Directors in accordance with
  its Charter
- The CFO reports annually to the Audit Committee the risks identified and measures to manage risks, as well as any changes in them
- The Company discloses risks, uncertainties, and risk management to its stakeholders in accordance with the principles presented in the Finnish Corporate Governance Code

The CFO with the assistance of the group management team is responsible for the preparation of the Risk Management Policy and the systematic and appropriate implementation of the risk management. The CFO shall ensure appropriate coverage of the Company's risk management and assess the implementation of the risk management. The CFO reports on the risk management to the Board of Directors.

The members of the group management team are responsible for the planning, implementation and follow-up of the risk management measures in their own responsibility area. The functions and franchisees are responsible for the operational risk management in their own area by identifying and assessing risks in their own area and defining risk control measures, and their implementation shall be monitored systematically.

#### 3. Internal audit

The Board of Directors has not found it necessary to date to establish a separate internal audit function. The Company's Finance function has instead been adapted to also deal with internal audit duties. Audit Committee re-evaluates annually whether to establish a separate internal audit function. Furthermore, Audit Committee continuously evaluates material risks and control activities. Where necessary, the Board of Directors may purchase internal audit services from an external service provider.

#### IV. Other information 1. Related party transactions

The Company maintains records of its related parties and adheres to the responsibilities set out in the Finnish Companies Act and the Code when monitoring and evaluating related party transactions.

The Board of Directors evaluates, and monitors transactions concluded between the Company and its related parties to ensure that any conflicts of interest are taken into account appropriately in the decision-making of the Company. Related party transactions that are not concluded in the ordinary course of business or on customary commercial terms are subject to approval by the Board of Directors. The Company's Finance function monitors related party transactions as part of the normal control activities and reporting procedure and reports related party transactions to the Audit Committee. Related party transactions are disclosed as required annually in the notes to the Company's financial statements. Material related party transactions are disclosed in accordance with the Securities Market Act.

#### 2. Insider administration

Musti Group's insider policy, based on the Guidelines for Insiders of Nasdaq Helsinki Ltd and the Market Abuse Regulation, describes the main obligations of insiders in the Company as well as the trade reporting of managers and their closely associated persons, and other related regulations and guidance under the Market Abuse Regulation. The Board of Directors confirms the insider policy.

The Company draws up and maintains project-specific insider lists only. Project-specific insider lists are not public. Persons entered in a project-specific insider list are not allowed to trade on Musti Group's financial instruments during the term of the insider project.

The members of the Board of Directors, the CEO, and the members of the group management team of Musti Group and their closely associated persons are required to notify the Company and the Finnish Financial Supervisory Authority of transactions conducted on their own account relating to the Company's financial instruments. The Company publishes the information it has received in a stock exchange release promptly after receipt of the notification. The member of the Board of Directors, the CEO, and the members of the group management team each shall identify the persons closely associated with them and notify the Company in writing of required information. The notifications are available on the Musti Group's website.

The Board of Directors, the group management team, and selected employees ("Closed Period Employees") may not trade on Musti Group's financial instruments during a minimum period of 30 days prior to the publication of interim reports and financial statements, or on the date of publication ("Closed Period"). The Closed Period Employees are individuals who have more information about the Company than the market due to their work duties, such as preparation of the Company's interim reports and financial statements, or responsibilities related to the Company's finances, financial reporting or communication. In addition, persons who have access to the said information for the purpose of carrying out their work duties, and certain individuals in executive positions, are considered by the Company as Closed Period Employees.

The CFO of the Company is responsible for the insider administration. The Company's employees may report actual or potential infringements of the insider policy or financial market regulation in accordance with the anonymous whistleblower channel.

#### **3. External auditor**

The General Meeting resolves on the election of the external auditor and the auditor's remuneration. According to the Articles of Association, the Company must have one external auditor that shall be an Authorized Public Accountant Firm approved by the Finnish Patent and Registration Office. The auditor's term of office ends at the close of the Annual General Meeting following the election.

The AGM 2024 re-elected Ernst & Young Oy, Authorized Public Accountants, as external auditor of the Company with Johanna Winqvist-Ilkka, Authorized Public Accountant, acting as the auditor with principal responsibility. Johanna Winqvist-Ilkka has acted as the Company's auditor with principal responsibility since 2018.

#### The remuneration paid for audit and non-audit services is set out below.

EUR thousand	1 Oct 2023-31 Dec 2024	1 Oct 2022–30 Sep 2023
Audit fees	505,296	345,340
Fees for non-audit services	57,613	42,126

# **Remuneration Report 2024**

This Remuneration Report has been prepared in compliance with Musti Group plc's Remuneration Policy, which was adopted at Musti Group plc's Annual General Meeting on 21 January 2021 ('Remuneration Policy') and has been in force during the financial year 1 October 2023 – 31 December 2024 ('FY2024'). The Remuneration Report provides information on the remuneration paid to the Board of Directors and the CEO during the financial year. The remuneration and other financial benefits are reported on a cash basis. The Remuneration Report has been prepared in accordance with the section 'Remuneration Reporting' of the Finnish Corporate Governance (CG) Code 2025.

### Consideration of shareholder statements made during the handling of remuneration report 2023

Musti Group's Annual General Meeting held on 31 January 2024 did not approve the remuneration report for the financial year 2023. As a consideration to the statements made at the Annual General Meeting 2024, the Annual General Meeting 2025 has been proposed to elect two new independent Board members, which, according to the Board's assessment is sufficient to address statements expressed by the shareholders at the Annual General Meeting 2024. Independent Board members can assess the company's remuneration practices with greater objectivity, ensuring alignment with the best governance standards and shareholder interests. Therefore, the Board has assessed that no significant amendments to the preparation of the Remuneration Report are needed.

#### **Overview of remuneration in the financial year 1 October 2023 – 31 December 2024**

This is the fourth Remuneration Report for governing bodies applied within Musti Group plc ("Musti Group" or "Company") and it complies with the CG Code. The CG Code 2025 is available in full on the website of the Securities Market Association at <u>www.cgfinland.fi</u>. This Remuneration Report concerns the remuneration of the members of Musti Group's Board of Directors as well as the CEO of Musti Group in FY2024. The Remuneration Policy will be reviewed starting January 2025.

The Remuneration Committee of Musti Group's Board of Directors prepared this Remuneration Report, and the Board of Directors approved it on 13 March 2025. Musti Group's auditor, Ernst & Young Oy, has audited this Remuneration Report to confirm that it contains the information referred to in the Ministry of Finance Decree on the remuneration policy and remuneration report of a share issuer (608/2019). This remuneration report will be reviewed at Musti Group's 2025 Annual General Meeting.

This Remuneration Report is available on Musti Group's website at <u>www.mustigroup.com/</u> investors/corporate-governance/remuneration.

Group net sales for the 15-month period was EUR 560.6 million (EUR 425.7 million). In addition to the longer financial year, network expansion had a positive impact on the net sales and was partly offset by currency exchange rate fluctuations. Pet Parenting experienced softer demand during the year yet as consumers felt the pinch from the combination of higher interest rates and inflation. We strongly believe this softness is temporary, and growth will pick up during 2025 due to returning consumer confidence. Our sales continued to grow with moderate pace despite the softer consumer confidence and shows the resilience of the pet care sector.

The purpose of remunerations paid by the Company is to drive its strategy and create long-term, sustainable performance with increased shareholder value. The structure of the remuneration of the Company's Board of Directors and the CEO and the decision-making order in FY2024 complied with Musti Group's Remuneration Policy for the governing bodies.

In FY2024 the Board members were paid a fixed annual fee. The amount of the fees paid depended on their duties in the Board of Directors – Chair and member of the Board of Directors, and Chair and member of a committee of the Board of Directors. The fees paid are disclosed under `Remuneration of the Board of Directors.

The total remuneration paid to the CEO in FY2024 consisted of fixed monthly salary, fringe benefits, short-term bonus, and long-term incentive plan. The short-term bonus is to promote the Company's strategy through the achievement of annual targets. The aim of a share-based incentive plan is to align the objectives of the shareholders and key employees for increasing the value of the Company in the long term. The remuneration paid and incentive plans to the CEO are disclosed under `Remuneration of the CEO'.

Musti Group has two share-based long-term incentive plans ("Musti Performance Share plan"), each consisting of three consecutive performance periods.

The Performance Share Plan FY2020–2023 consists of three consecutive performance periods, covering the financial years 2020–2022, 2021–2023 and 2022–2024. The 2020–2022 program was paid out in January 2023. The 2021-2023 program was paid out in January 2024. The 2022-2024

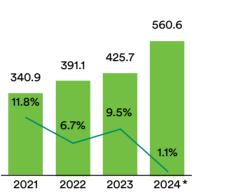

program was in vesting/waiting period during FY2024. The performance (measurement) period for the 2022-2024 program ended in September 2022 and as the targets of the KPIs were not met, there is no outcome to be paid.

The Performance Share Plan FY2023-2027 consists of three consecutive performance periods, covering the financial years 2023-2025, 2024-2026 and 2025-2027. The 2023-2025 program was paid out in April 2024 as the Board of Directors resolved on the payment in cash of the already allocated share plan incentive based on the 2023 performance. The payment in cash was resolved in order to facilitate the establishment of a new long-term incentive plan. The 2024-2026 program was approved by the Board of Directors and launched in January 2024. The 2025-2027 program was not yet launched during FY2024.

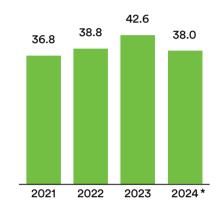

The Board of Directors decides separately for each performance period the performance criteria. and the related targets, as well as the minimum, target, and maximum reward potentially payable based on target attainment at the beginning of a performance period. The potential reward based on the plan will be paid partly in the Company's shares and partly in cash after the end of each performance period. The cash proportion is intended to cover taxes and tax-related expenses arising from the reward to a participant. No reward is paid if the participant's employment or service terminates for reasons related to the participant before the reward payment unless the Board of Directors decides otherwise.

The company's Group management team member is obliged to hold at least 50 per cent of the net number of shares paid to the member based on the plan, until the value of his or her total shareholding in the company equals to 50 per cent (100 per cent for the CEO) of his or her annual base salary. Such number of shares must be held as long as the membership in the group management team continues.

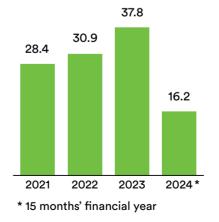

#### Net sales. EUR million and like-for-like sales growth, %

#### **Adjusted EBITA. EUR million**

#### **Operating profit, EUR million**

### **Development of Musti Group's financial performance and remuneration**

The table below presents the development of the Board of Directors and the CEO's remuneration compared to the development of the average remuneration of Musti Group's employees and Musti Group's financial development during the last five financial years. Board remuneration numbers include both Board fees and Committee fees.

#### Compensation

(EUR)	FY2024	FY2023	FY2022	FY2021	FY2020
Chair of the Board*	65,000	70,000	70,000	65,000	60,000
Vice-Chair of the Board	47,500	45,000	47,500	42,500	30,000
Other members of the Board (average)	42,031	41,667	40,833	32,500	30,000
CEO	1,916,674	533,576	659,740	614,456	653,754
Average Musti Group employee**	59,577	47,334	47,824	47,963	42,405

\* As decided by the AGM. Cláudia Azevedo, Jõao Dolores and Jõao Amaral did not receive any remuneration for their duties for the company as they work for the company's ultimate parent company Sonae. Information on their remuneration is available in Sonae's Remuneration Report: <u>https://www.sonae.pt/en/investors/releases-to-the-market/</u>

\*\* The average compensation in this table is the paid-out compensation during the fiscal year. The remuneration of the average Musti Group employee is based on all personnel. The fiscal year 2024 was exceptionally 15 months.

#### **Remuneration of the Board of Directors**

The Annual General Meeting 2024 confirmed the following fixed annual fees for the members of the Board of Directors:

	EUR
Chair of the Board	65,000
Members of the Board	35,000

The Annual General Meeting 2024 confirmed the following annual fees for the members of the Committees:

	EUR
Chair of the Committee	7,500
Committee members	5,000

Board members are not compensated separately for attending the Board meetings. Travel expenses resulting from Board meetings are compensated in accordance with the Company's travel compensation regulations. Remuneration for the Board members does not include pension payments.

The extraordinary general meeting of Musti Group plc elected new board members on 12 April 2024. These members do not receive a separate remuneration for their duties at the Company, as they work for the company's ultimate parent company, Sonae.

Members of the Board of Directors are not included in Musti Group's short- or long-term incentive programs.

#### Fees paid to the Board members in the financial year 1 October 2023 – 31 December 2024

llkka Laurila, until 12 April 2024	Chair of the Audit Committee	35,000	7,500	42,500
Inka Mero, until 12 April 2024	Member of the Audit Committee	35,000	5,000	40,000

#### 31

#### **Remuneration of the CEO**

The Company's CEO was David Rönnberg throughout the financial year 1 October 2023 – 31 December 2024.

The remuneration of the CEO consists of a fixed monthly salary, fringe benefits, an annual bonus potential (short-term incentive plan) and long-term incentive plan. The retirement age of the CEO is 63 years under current legislation. The CEO is entitled to life insurance and supplementary pension payments on behalf of Musti Group in accordance with a pension agreement concluded with the Company. The CEO receives a supplementary pension at the age of 63.

#### Short-term performance bonus

The CEO is eligible to participate in the bonus scheme in accordance with the company's bonus policy. The purpose of the short-term bonus (STI) is to promote the company's strategy through the achievement of annual targets. The terms of the bonus are decided annually by Musti Group's Board of Directors. The bonus of the CEO is based on financial targets set for the financial year. For the financial vear 1 October 2023 - 31 December 2024, the maximum performance bonus was equivalent to a 7.5 months' full salary. The performance criteria for the bonus are Group EBITA, Group EBITDA and Group Sales. The fulfilment of the bonus criterions is evaluated in the beginning of fiscal year 2025.

#### Long-term incentive plan

Musti Group has two share-based long-term incentive plans ("Musti Performance Share plan"), each consisting of three performance periods. The aim of a share-based compensation plan is to align the objectives of the shareholders and key employees for increasing the value of the Company in the long term. The plan FY2020-2023 includes the performance periods financial year 2020-2022, 2021-2023 and 2022-2024. The plan FY2023-2027 includes the performance periods of the financial years 2023-2025. 2024-2026 and 2025-2027. The CEO is part of all currently valid long-term incentive plans.

The CEO is obliged to hold at least 50% of the net number of shares paid based on the plan, until the value of his or her total shareholding in the Company equals 100% of his or her annual base salary. Such number of shares must be held as long as the CEO's service contract continues.

#### Remuneration paid to the CEO in the financial year 1 October 2023 – 31 December 2024

Fixed salary, including benefits	Short-term bonus*	Long-term incentive	Additional pension	Total remuneration
606,584	107,000	1,203,090	0	1,916,674

\* Earned based on performance in the fiscal year 1 October 2022 - 30 September 2023, paid in December 2023.

# **Board of Directors' Report**

for the financial year October 2023 - December 2024

#### **Market outlook**

Musti Group operates in the Nordic and Baltic pet care markets, broadly defined as the sale of pet food, products, services and veterinary care. In our Nordic markets Finland, Sweden and Norway, our core market consisting of pet food and products was estimated by Euromonitor at approximately EUR 2.2 billion in 2023, with Sweden as the largest market (approximately EUR 0.8 billion), followed by Finland (approximately EUR 0.8 billion) and Norway (approximately EUR 0.6 billion). In late 2024, Musti entered the Baltic market through acquisition of Pet City with operations in Estonia, Latvia and Lithuania.

Pet care market is driven by an underlying long term structural trend called pet parenting, the tendency of people to treat their pets increasingly like family members. This trend leads to premiumization and humanization as consumers spend more on higher quality and more premium nutrition, as well as a more diverse range of products and wider adoption of services.

#### **Key Events**

- In November 2023, the Company withdrew three batches of SMAAK pet food following customer claims. The high concentration of glycoalkaloids in a batch of imported potato flakes was identified as the reason for the symptoms caused by the withdrawn products.
- A consortium comprising Sonae, Jeffrey David, Johan Dettel and David Rönnberg announced a recommended public tender offer through Flybird Holding Oy for all shares in Musti on 29 November 2023. On 20 February 2024, the Offeror announced the final result of the tender offer and that it completes the tender offer.
- On 20 February 2024, the Offeror announced that it will commence a subsequent offer period for those shareholders of Musti who have not yet accepted the tender offer.
- On 11 March 2024, the Offeror announced the final result of the subsequent offer period. The shares validly tendered during the subsequent offer period represent approximately 80.65 per cent of the shares and votes in Musti.

- In November 2024, Musti acquired the shares of Pet City OÜ including its subsidiaries Pet City UAB, Pet City SIA and Pet City Klinika UAB and Eesti Veterinaaria Kliinikum OÜ from Magnum Group for an Enterprise Value (EV) of EUR 18.0 million, of which EUR 13.7 million was paid in cash at closing. The remaining will be settled once the closing accounts have been approved by both buyer and the seller.
- Pet City operates 46 retail stores and 16 veterinary clinics in the Baltic countries including an e-commerce platform operating throughout the Baltic region. Pet City is reported in the New Markets segment that was formed in December 2024.

#### **Group performance**

Musti Group's financial year was changed to calendar year during the reporting period, and therefore the financial year 2024 covers 15 months. The financial year was from 1 October to 30 September prior to the change. Due to the extended financial year, the amounts presented in this report are not entirely comparable. Comparison period for the financial year 2024 is 1 October 2022 – 30 September 2023. Like-for-like growth for financial year 2024 has been calculated for the 15-month period.

#### **Group key figures**

#### **Group net sales**

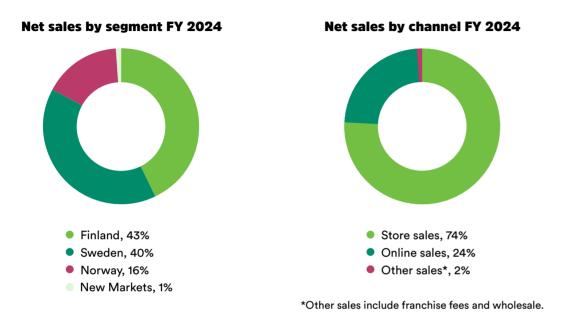

EUR million	10/2023-12/2024	10/2022-9/2023
Net sales		
Group	560.6	425.7
Finland	242.1	189.9
Sweden	224.2	170.9
Norway	91.1	64.9
New Markets	3.2	

Group net sales for the 15-month period was EUR 560.6 million (EUR 425.7 million). In addition to the longer financial year, network expansion had a positive impact on the net sales and was partly offset by currency exchange rate fluctuations. Pet City increased the net sales by EUR 3.2 million during FY24. The effect on the Group's net sales would have been approximately EUR 42.2 million if the acquisition had been consolidated from the beginning of the financial year.

Currency exchange rate changes affected the net sales negatively by EUR 6.0 million. Weakened SEK exchange rate decreased sales by EUR 1.5 million and NOK exchange rate decreased sales by EUR 4.5 million. Like-for-like growth, which is calculated in local currencies, amounted to 1.1% (9.5%).

Store sales was EUR 413.2 million (EUR 322.3 million). We added a net 81 directly operated stores during the financial year to our network of which 62 as part of the acquisition of Pet City. Like-for-like store sales growth was -1.6% (6.7%). Online sales were EUR 136.4 million (EUR 97.8 million). Like-for-like online sales growth was 10.1% (19.0%). Online sales accounted for 24.3% (23.0%) of total net sales.

The total number of customers increased by 3.3% to 1,866 thousand (1,806 thousand). Rolling 12 months average spend per loyal customer was EUR 209.1 (EUR 206.4).

#### Group result

Group adjusted EBITA was EUR 38.0 million (EUR 42.6 million). This was impacted by the continuously weak consumer climate, pressure in gross profit and inflation. Recent movements of the local currencies SEK and NOK had a negative impact of EUR 0.6 million on adjusted EBITA (EUR 3.1 million negative in the comparison period). Adjusted EBITA margin was 6.8% (10.0%).

Gross margin decreased to 44.1% (45.7%). The share of sales of own and exclusive brands was 51.5% (52.4%). The share of employee benefits and other operating expenses as percentage of sales was 33.1% (29.4%) mainly driven by the significant amount of non-recurring costs and inflation.

Depreciation amounted to EUR 43.7 million (EUR 31.0 million) and amortization amounted to EUR 7.3 million (EUR 5.8 million). Main driver is the growing store network via IFRS 16 impact.

Adjustments to EBITA were EUR 14.4 million (EUR -0.9 million) in the reporting period. The adjustments include costs relating to the public tender offer, digitalization projects, the value added taxes related to IPO, restructuring, the acquisition of Pet City, and the product recall which was made in November 2023.

Unadjusted operating profit was EUR 16.2 million (EUR 37.8 million).

Profit before taxes amounted to EUR 8.2 million (EUR 33.7 million). The impact of financial income and expenses (net) on profit before taxes was EUR 8.1 million negative (EUR 4.1 million negative), mainly due to interest expenses and change in fair value of hedging instruments. Profit for the period was EUR 6.7 million (EUR 26.5 million) and basic earnings per share was EUR 0.20 (0.79).

Musti Group has been subject to a tax audit of Musti Group Oyj, Musti Group Finland Oy and Musti Group Nordic Oy regarding financial years 2018-2020. Musti Group Oyj has in October 2021 received a tax audit report from the Finnish tax authorities. The tax audit report included subsequent taxes and tax increases amounting to a total of EUR 0.9 million, relating to the VAT deductibility of IPO related costs. Tax and increases have been paid in November 2021. The Company disagreed with the interpretation made in the tax audit and filed a claim for adjustment. Based on the decision by the Tax Administration, the Company recognized EUR 0.4 million in 2023 and based in the final decision EUR 0.2 million in 2024 of VAT as an expense. The Tax Administration returned EUR 0.3 million paid VAT to the Company.

#### **Financial position and cashflow**

Net cash flow from operating activities totaled EUR 46.9 million (EUR 79.6 million) in the financial year. Change in net working capital had an impact of EUR -12.6 million (EUR 14.7 million) to the cash flow during the financial year. Operating cash flow was also affected by a significant amount of non-recurring costs, totaling EUR 15.3 million. Cash flow used in investing activities during the financial year amounted to EUR 40.5 million (EUR 18.6 million).

Cash and cash equivalents at the end of the financial year amounted to EUR 11.8 million (31 December 2023: EUR 18.9 million). Total consolidated assets amounted to EUR 443.3 million (31 December 2023: EUR 399.5 million).

Equity attributable to owners of the parent company totaled EUR 166.9 million (31 December 2023: EUR 171.3 million).

Gearing at the end of the financial year was 112.3% (31 December 2023: 80.0%) and net debt amounted to EUR 187.5 million (31 December 2023: EUR 137.0 million). At the end of the financial year, the interest-bearing loans and commercial papers included in net debt amounted to EUR 104.3 million (31 December 2023: EUR 74.9 million) and lease liabilities EUR 95.6 million (31 December 2023: EUR 79.3 million).

Musti Group focuses on maintaining sufficient liquidity in the group. Musti Group had an unutilized EUR 5.0 million bank overdraft, unutilized term facilities of EUR 15 million, unutilized revolving credit facilities in total of EUR 100 million and a EUR 50 million commercial paper program of which EUR 7.5 million was in use.

Musti Group signed a 3+1-year Facilities Agreement with Danske Bank, OP Corporate Bank plc and Swedbank AB (Publ) on 28th August 2024. The Facilities Agreement consists of a EUR 110 million Term Facility, a EUR 100 million Revolving Credit Facility and an uncommitted Accordion Facility of EUR 60 million. The proceeds were used to refinance existing indebtedness and to support the company achieving long-term strategic goals. The Facilities Agreement matures in August 2027 and with the agreed 1-year extension option, final maturity reaches August 2028.

#### Investments

In October 2023 – December 2024, investments in tangible and intangible assets amounted to EUR 19.2 million (EUR 11.9 million). Investments were mainly related to new and relocated stores, logistics and production machinery as well as IT and digital platform development projects.

In November 2024, Musti acquired the shares of Pet City OÜ including its subsidiaries, Pet City UAB, Pet City SIA and Pet City Klinika UAB and Eesti Veterinaaria Kliinikum OÜ from Magnum Group for an Enterprise Value (EV) of EUR 18.0 million, of which EUR 13.7 million was paid in cash at closing. The remaining will be settled in cash once the closing accounts have been approved by both buyer and the seller.

In addition, EUR 5.7 million were invested in acquisitions whereby Musti Group acquired the businesses of eight pet stores and a majority ownership of a veterinary clinic in Sweden during the financial year 2024. In December 2024, Musti invested EUR 2.0 million in a 40% share of a veterinary business Petrus Veterinærer AS in Norway. The company is treated as an associated company.

#### **Strategy and targets**

Our strategy is to continue developing the Musti concept and value proposition in the Nordic markets to serve existing customers better and to acquire new customers, with focus on Pet Parents.

#### Winning new customers

Musti Group is well positioned to continue our track record of winning new customers from the large and growing Nordic population of dogs and cats.

Success in new customer acquisition is a key driver of continued market share gain across our Nordic markets. Acquisition of puppies and kittens is especially important from a lifetime value perspective. This is supported by our concept, our leading brand awareness, and customer focus. The underlying pet parenting trend, favoring Musti Group's concept, continues strong.

#### Grow share of wallet

Growing the share of wallet within our customers is a clear opportunity for Musti Group. To deepen the engagement of our customers, Musti is developing an ecosystem approach for Nordic pet parents with an 'All you need is Musti' mentality across the pet lifecycle. Supported by data we are able to customize our value proposition to individual needs of Nordic pets and their parents.

Rolling 12 months average spend per loyal customer increased to EUR 209.1 in financial year 2024 (EUR 206.4 on 30 September 2023).

#### Expand store network and number of service points

Musti Group entered the Baltic markets in November 2024 by acquisition of the shares of Pet City OÜ (including its subsidiaries Pet City UAB, Pet City SIA and Pet City Klinika UAB) and Eesti Veterinaaria Kliinikum OÜ. Pet City operates 46 retail stores and 16 veterinary clinics in the Baltic countries including an e-commerce platform operating throughout the Baltic region. In addition, we continue rolling out further stores to win new customers through our strong concept and increased convenience, with local presence in Nordic and Baltic communities enabling customers to switch to the Musti Group platform. This is complemented by a strong online offering, representing 24.3% (23.0%) of sales.

Musti Group has the largest pet specialty store footprint in the Nordic countries. Expansion investments come with long term benefits and the number of directly operated stores has increased from 231 end of financial year 2020 to 415 after financial year 2024. Along with expanding the store network, Musti Group has invested into adding services to our network.

### Focusing on driving gross margins through increased O&E share and leveraging scale

A core element of Musti Group's strategy is developing the offering of own and exclusive products sold only in Musti Group's channels. This comes with three main benefits of the uniqueness of our offering, loyalty especially in food and other consumable categories, and higher gross margin profile.

Musti Group has historical track record in driving a solid gross margin. Own and exclusive brands are a cornerstone of our high gross margins as these brands typically carry 10-15 percentage points higher margins compared to global brands.

In financial year 2024, gross margin decreased to 44.1% (45.7%) This was impacted by the continuously weak consumer climate, due to targeted investment in price and campaign activities and inflation. Share of sales of own and exclusive brands was 51.5% (52.4%) during the year.

Musti's Year Musti's Direction Corpora

### Leveraging broadly invested platform to drive operating leverage and scale benefits

Significant investments to Musti Group's IT, digital platforms, warehouse and production facility are expected to drive increased operating leverage and scale benefits to further increase Musti Group's profitability as topline growth is expected to continue while fixed costs may be spread across larger net sales.

#### **Financial targets**

Following its review in April 2024, the Board of Directors of Musti Group Plc decided to withdraw the company's long-term financial targets, updated by the Board of Directors on 3 May 2021. With the new majority owner, Musti Group is now in a new strategic phase with need to focus on sustainable growth to create value to its pet parent customers, owners and other stakeholders. In addition, the Board of Directors resolved to amend the company's dividend policy as follows: The company's net profit shall be used towards financing the company's growth and investments, and the company does not expect to distribute dividends. The Board of Directors may however assess dividend distribution annually.

#### **Business segment performance**

Musti Group's reporting segments are primarly based on geographical regions Finland, Sweden and Norway. The segment structure is based on geographical division where Finland, Sweden and Norway are separated to individual operating segments based on how the chief operating decision-maker monitors the business operations. In addition, the management monitors the new market areas separately, for which the new operating and reporting segment, the New Markets, was formed in the end of 2024. Currently the segment comprises of the Baltic countries. In other items, Musti Group reports the Group functions, including the operations of the headquarters, the central warehouse and production.

#### Finland

Finland is our most mature market where Musti Group is the market leader with a nationwide network. A vast majority of Finnish pet parents are within convenient reach of a Musti store complemented by an omni-channel offering with fast deliveries. Musti Group's brands in Finland are Musti ja Mirri (store, services and omnichannel) and Peten Koiratarvike (online focus complemented by select stores).

In Finland, our goal is to continuously optimize our footprint and offering to best meet consumer needs, and to invest in maintaining our market leading omnichannel offering.

EUR million or as indicated	10/2023-12/2024	10/2022-9/2023
Net sales	242.1	189.9
Net sales growth. %	27.5%	11.9%
LFL segment sales growth, %	-1.3%	9.7%
EBITDA	60.6	52.6
EBITDA margin. %	25.1%	27.7%
Adjusted EBITDA	61.2	52.6
Adjusted EBITDA margin. %	25.3%	27.7%

Adjusted EBITA	46.6	41.5
Adjusted EBITA margin. %	19.2%	21.9%
Number of stores	137	136
of which directly operated	137	136

Net sales in Finland were EUR 242.1 million (EUR 189.9 million). Net sales were positively affected by the online sales and the acquisition of Premium Pet Food Suomi Oy pet food factory, which was carried out during Q3/2023. Sales were negatively offset by weak consumer climate and the product recall made in November 2023. Like-for-like sales growth was -1.3%.

EBITA was EUR 46.0 million (EUR 41.5 million). Adjusted EBITA was EUR 46.6 million (EUR 41.5 million). Adjusted EBITA margin was 19.2% (21.9%).

During the reporting period, one new directly operated store was opened and one closed. One third party store was acquired.

#### Sweden

Musti Group has been present in Sweden since 2010 and is today the Swedish market leader with 133 stores complemented by omnichannel through the brands Arken Zoo (store, omnichannel and veterinary clinics) and VetZoo (online focus).

In Sweden, our focus is on continued customer acquisition and network expansion as we see further room to increase our reach in the larger Swedish market when compared to our more mature Finnish benchmark.

EUR million or as indicated	10/2023-12/2024	10/2022-9/2023
Net sales	224.2	170.9
Net sales growth. %	31.2%	3.6%
LFL segment sales growth. %	1.0%	8.6%
EBITDA	43.8	36.3
EBITDA margin. %	19.5%	21.2%
Adjusted EBITDA	44.0	36.5
Adjusted EBITDA margin. %	19.6%	21.4%
EBITA	28.9	25.5
EBITA margin. %	12.9%	14.9%
Adjusted EBITA	29.1	25.7
Adjusted EBITA margin. %	13.0%	15.0%
Number of stores	133	131
of which directly operated	129	119

Net sales in Sweden was EUR 224.2 million (EUR 170.9 million). The weakened SEK exchange rate decreased sales by EUR 2.0 million in the reporting period. The like-for-like sales growth, which is calculated in local currencies, was 1.0%.

EBITA was EUR 28.9 million (EUR 25.5 million). Adjusted EBITA was EUR 29.1 million (EUR 25.7 million). Adjusted EBITA margin decreased to 13.0% (15.0%).

During the reporting period, three new directly operated stores were opened, seven stores were acquired, and two franchise stores left the chain.

#### Norway

Musti Group entered Norway in late 2016 and has reached market leadership with presence in 83 local communities complemented by our omnichannel offering. Our brands in Norway are Musti (store, services and omnichannel) and VetZoo (online).

Norway remains a more fragmented market where Musti Group holds a market leading position, yet clearly lower market share compared to Finland and Sweden. Therefore our focus is to continue on the path of market share gains through continued customer acquisition supported by further store roll-out into more communities, and on increasing country profitability as the network matures.

EUR million or as indicated	10/2023-12/2024	10/2022-9/2023
Net sales	91.1	64.9
Net sales growth. %	40.3%	14.9%
LFL segment sales growth. %	9.0%	11.3%
EBITDA	20.6	15.1
EBITDA margin. %	22.6%	23.2%
Adjusted EBITDA	20.6	15.1
Adjusted EBITDA margin. %	22.6%	23.2%
EBITA	12.9	9.4

Adjusted EBITA	13.0	9.4
Adjusted EBITA margin. %	14.2%	14.5%
Number of stores	83	75
of which directly operated	83	75

Net sales in Norway were EUR 91.1 million (EUR 64.9 million), driven by like-for-like sales growth of 9.0% and ramp-up of the stores opened during the last twelve months. The weakened NOK exchange rate decreased sales by EUR 4.0 million in the reporting period.

EBITA was EUR 12.9 million (EUR 9.4 million). Adjusted EBITA was EUR 13.0 million (EUR 9.4 million). The currency exchange rate continued to affect profitability negatively throughout the reporting period. Adjusted EBITA margin was 14.2% (14.5%).

During the reporting period, ten directly operated stores were opened and two were closed.

#### **New Markets**

Musti entered the Baltic markets in November 2024 by acquiring Pet City. Pet City operates 46 retail stores and 16 veterinary clinics in the Baltic countries including an e-commerce platform operating throughout the Baltic region. The store network consists of 25 stores in Estonia, 14 in Latvia and 7 in Lithuania. On the veterinary clinic side, there are 8 clinics in Estonia, 4 in Latvia and 4 in Lithuania.

EUR million or as indicated	10/2023-12/2024
Net sales	3.2
EBITDA	0.2
EBITDA margin, %	5.8%
Adjusted EBITDA	0.2
Adjusted EBITDA margin, %	5.8%
EBITA	-0.2
EBITA margin, %	-6.1%
Adjusted EBITA	-0.2
Adjusted EBITA margin, %	-6.1%
Number of stores	62
of which directly operated	62

Pet City, which is reported in the segment New Markets, was acquired in November 2024 and has been consolidated in Musti Group since December 2024. The key financial figures for December are presented in the table above. The net sales would have been approximately EUR 42.2 million if Pet City had been consolidated from the beginning of the financial year.

#### **Group functions**

Adjusted EBITA was EUR -50.5 million (EUR -34.0 million). The adjustments include costs relating to the public tender offer, digitalization projects, the value added taxes related to IPO, restructuring, the acquisition of Pet City, and the product recall which was made in November 2023. Adjusted Group functions cost in relation to group net sales was 9.0% (8.0%). The increase related to the changed structure of the Group functions after the integration of Premium Pet Food Suomi Oy's production, inflation and investments in growth initiatives.

The EBITA impact of the Group functions was EUR -64.0 million (EUR -32.8 million). The costs relating to the public tender offer were the main driver for the increased costs.

#### Personnel

At the end of the reporting period on 31 December 2024, the number of personnel was 2,178 (31 December 2023: 1,704) of whom 720 (31 December 2023: 695) were employed in Finland, 679 (31 December 2023: 672) in Sweden, 372 (31 December 2023: 337) in Norway and 408 in Baltics.

#### Personnel

More information on the remunerations is available for reading at the **<u>Remuneration Report</u>** published in accordance with the Financial Statements and the Board of Directors' Report.

#### **Changes in Group structure**

Musti Group divested its subsidiary Djurfriskvård Borlänge AB in May 2024. The company did not have any business operations and the divestment did not have a material impact on the Group's income statement or balance sheet.

Musti Group acquired a 70% share of a veterinary clinic Ninas Värld Arninge AB in September 2024. The acquisition did not have a material impact on the Group's assets or liabilities.

Musti Group acquired the shares of Pet City OÜ, including its subsidiaries Pet City UAB, Pet City SIA and Pet City Klinika UAB, and Eesti Veterinaaria Kliinikum OÜ in November 2024.

#### **Changes in Group management**

On 16 May 2024 Musti Group announced that Toni Rannikko will step down as the CFO and a member of the Management Team of Musti Group plc during summer 2024. On 1 August 2024, Robert Berglund started as new CFO (Chief Financial Officer) and member of the Management Team of Musti Group plc.

## Information contained in the notes to the financial statements

Related party transactions are disclosed in note 6.1.

#### Governance

Musti Group is committed to good corporate governance through compliance with laws and regulations in all its operations and to implementing recommendations for good corporate governance. The governance of the Musti Group complies with the Company's Articles of Association, Finnish and EU laws and regulations, the Finnish Companies Act, the Accounting Act, securities markets regulations and other decrees and regulations relevant to the governance of a public limited liability company. Furthermore, Musti Group's operations are guided by values and internal operating principles ratified by the company.

The governance of Musti Group is described in more detail in the <u>Corporate Governance</u> <u>Statement</u> published in connection with the Financial Statements and the Board of Directors' Report.

#### **Annual General Meeting**

Musti Group plc's Annual General Meeting was held on 31 January 2024 in Helsinki.

The Annual General Meeting adopted the annual accounts for the financial year 1 October 2022 – 30 September 2023 and discharged the persons who have acted as the members of the Board of Directors and CEO during the financial year from liability. In its advisory resolution, the Annual General Meeting did not approve the Remuneration Report for the governing bodies.

The Annual General Meeting resolved, in accordance with the proposal of the Board of Directors, that the profit for the financial year 1 October 2022 – 30 September 2023 be added to retained earnings and that no dividend will be paid. Instead, the Annual General Meeting resolved to authorize the Board of Directors, at its discretion, to decide on the payment of a return of capital of an aggregate maximum of EUR 0.60 per share from the Company's invested unrestricted equity reserve in one or more instalments later.

The authorization is valid until the beginning of the next Annual General Meeting. The Company shall publish any decisions concerning the return of capital made by the Board of Directors pursuant to the authorization separately and will in connection therewith confirm the record date and the payment date applicable to the return of capital.

The Annual General Meeting decided, in accordance with the proposal of the Board of Directors, that the members of the Board of Directors be paid the following annual remuneration:

- Chair of the Board of Directors: EUR 65,000
- Other members of the Board of Directors: EUR 35,000

In addition, members of the Audit Committee and the Remuneration Committee of Board of Directors will be paid the following annual remuneration:

- Chair of the Committee: EUR 7,500
- Other Committee members: EUR 5,000

The Annual General Meeting decided that the number of members of the Board of Directors shall be five (5). Jeffrey David, Ingrid Jonasson Blank, Ilkka Laurila, Inka Mero and Johan Dettel were re-elected as members of the Board of Directors for a term of office expiring at the end of the next Annual General Meeting.

Ernst & Young Oy, Authorized Public Accountants, was re-elected as the auditor of the Company for a term of office ending at the end of the next Annual General Meeting. Ernst & Young Oy has notified the Company that Johanna Winqvist-Ilkka, Authorized Public Accountant, will act as the auditor with principal responsibility. The Annual General Meeting decided that the remuneration to the auditor shall be paid against a reasonable invoice approved by the Audit Committee.

The Annual General Meeting decided, in accordance with the proposal of the Board of Directors, that the transfer restriction on the Board of Directors' remuneration shares resolved at the Annual General Meeting held on 27 January 2022 be waived.

The waiver of the transfer restriction enables the members of the Board of Directors holding such remuneration shares, should they wish, to participate in the Tender Offer with such shares.

#### **Extraordinary General Meeting**

Musti Group plc's Extraordinary General Meeting was held on 12 April 2024 in Helsinki.

The Extraordinary General Meeting decided that the number of members of the Board of Directors shall be five (5). The Extraordinary General Meeting elected Maria Cláudia Teixeira de Azevedo, João Pedro Magalhães da Silva Torres Dolores and João Nonell Günther Amaral as new members, and Jeffrey David and Johan Dettel were re-elected as members of the Board of Directors. The term of office of those members of the Board of Directors of Musti who were not re-elected, ended upon the closing of the Extraordinary General Meeting.

The Extraordinary General Meeting decided that section 10 of the Articles of Association of Musti is amended to read as follows:

10 § The financial period of the Company shall be the calendar year (1 January-31 December).

The Extraordinary General Meeting decided also that the current financial period of the Company, which commenced on 1 October 2023, shall continue until 31 December 2024. The length of the current financial period shall thus be 15 months. From 1 January 2025 onwards, the financial period of Musti will be the calendar year (1 January–31 December) in accordance with the amended Articles of Association.

#### **Shares and shareholders**

#### **Issued shares and share capital**

At the end of the financial year on 31 December 2024, Musti Group's share capital was EUR 11,001,853.68 and the total number of shares outstanding was 33,535,453. The company has one share class. Each share carries one vote and entitles to the same dividend.

#### **Trading of shares**

Trading of Musti Group's share commenced on the Prelist of Nasdaq Helsinki Ltd on 13 February 2020 and on the Official List on 17 February 2020.

The opening price of the share was EUR 18.00 on the first trading day of the financial year on 2 October 2023. The closing price of the share on the last trading day of the financial year on 30 December 2024 was EUR 19.92. The highest price of the share during the financial year was EUR 27.25, the lowest EUR 16.20. The average closing price during the financial year was EUR 24.14 and the average volume per day was 127,858 shares.

Musti Group's market capitalization was EUR 668.0 million on 30 December 2024.

#### **Own shares**

On 31 December 2024 Musti Group held 147,566 (147,566) own shares representing 0.44% (0.44%) of the total number of shares and votes. Musti Group did not purchase its own shares during the reporting period.

#### **Public Tender Offer for Musti's shares**

A consortium comprising Sonae, Jeffrey David, Johan Dettel and David Rönnberg announced a recommended public tender offer through Flybird Holding Oy for all shares in Musti on 29 November 2023. On 20 February 2024, the Offeror announced the final result of the tender offer and that it completes the tender offer and that it will commence a subsequent offer period for those shareholders of Musti who have not yet accepted the tender offer. On 11 March 2024, the Offeror announced the final result of the subsequent offer period. The shares validly tendered during the subsequent offer period represent approximately 80.65 per cent of the shares and votes in Musti.

#### **Authorizations of the Board of Directors**

The Annual General Meeting authorized the Board of Directors to decide on the repurchase of the Company's own shares and/or on the acceptance as pledge of the Company's own shares as follows:

The number of own shares to be repurchased and/or accepted as pledge based on this authorization shall not exceed 3,185,000 shares in total, which corresponds to approximately 9.5 percent of all the shares in the Company. However, the Company together with its subsidiaries may not at any moment own and/or hold as pledge more than 10 percent of all the shares in the Company.

Own shares may be repurchased only using the unrestricted equity of the Company at a price formed in public trading on the date of the repurchase or otherwise at a price determined by the markets. The Board of Directors decides on all other matters related to the repurchase and/or acceptance as pledge of own shares. Own shares may be repurchased using, inter alia, derivatives. Own shares may be repurchased otherwise than in proportion to the shareholdings of the shareholders (directed repurchase).

This authorization cancels the authorization given by the Annual General Meeting held on 30 January 2023 to decide on the repurchase the Company's own shares and/or to accept the Company's own shares as pledge. The authorization is effective until the conclusion of the next Annual General Meeting, however, no longer than until 31 March 2025.

The Annual General Meeting authorized the Board of Directors to decide on the issuance of shares as well as the issuance of special rights entitling to shares referred to in chapter 10 section 1 of the Finnish Companies Act as follows:

The number of shares to be issued based on this authorization shall not exceed 3,185,000 shares, which corresponds to approximately 9.5 percent of all of the shares in the Company. The authorization covers both the issuance of new shares as well as the transfer of treasury shares held by the Company.

The Board of Directors decides on all other conditions of the issuance of shares and of special rights entitling to shares. The issuance of shares and of special rights entitling to shares may be carried out in deviation from the shareholders' pre-emptive rights (directed issue).

This authorization cancels the authorization given by the Annual General Meeting held on 30 January 2023 to decide on the issuance of shares as well as on the issuance of special rights entitling to shares. The authorization is effective until the conclusion of the next Annual General Meeting, however, no longer than until 31 March 2025.

#### Shareholders and flagging notifications

At the end of the reporting period, the number of registered shareholders was 5,320. The proportion of nominee-registered shareholders was 3.7% of the company's shares. The 20 largest shareholders registered in the book-entry register maintained by Euroclear Finland Oy held a total of 94.88% of Musti Group's shares and votes at the end of the reporting period.

#### Remuneration

The objective of Musti Group's remuneration program is to promote the company's competitiveness and to support the execution of the company's strategy. Furthermore, the remuneration programs aim to retain key persons and the whole staff and create long-term commitment in order to achieve shared goals and to create shareholder value.

The remuneration in Musti Group is described in more detail in the <u>Remuneration Report</u> published in connection with the Financial Statements and the Board of Directors' Report.

#### **Non-Financial Information**

#### **Business model**

Musti Group operates in the pet markets in Finland, Sweden, Norway and Baltics as a manufacturer and retailer. Musti Group's product range includes pet food, pet care and welfare products and accessories and services. Services include trimming, training, massage and dietary services, and veterinary services in selected stores.

The Musti Group's integrated business model includes stores, e-commerce and in-store services. It serves its customers through the store chains Musti and Mirri, Musti, ArkenZoo, Peten Koiratarvike and Pet City, as well as through pure e-commerce such as Peten Koiratarvike and Vetzoo.

Consumers and pets are the Group's most important customer group, and the company is focused on sustainable growth to deliver value to pet parents, owners and other stakeholders. The Musti store concept is based on a wide range of pet food and accessories combined with a culture of knowledgeable and service-oriented employees. Dialogue with customers takes place not only through personal service but also through the consumer service function. Musti aims to build a community of pet owners and pets around it and to increase the well-being of both animals and people. It also works with stakeholders at all stages of the value chain.

Pet Parenting is the tendency for people to treat their pets as family members. This trend has increased the demand for high-quality premium foods and a more diverse range of products and services. This trend in the pet market will continue to be strong, shifting consumption towards higher quality food, a more varied range of supplies and greater use of services.

At the end of the financial year 2024, Musti Group had a total of 411 own stores in Finland, Sweden, Norway and Baltics. The Group has its own pet feed and treats factory in Finland. Musti Group's operations are based on responsible and efficient management of the entire value chain. During the financial year 2024, the Musti Group employed an average of 1761 people. Musti Group Plc is listed on Nasdaq Helsinki Oy.

During 2024, Musti Group has prepared for the requirements of the Directive (EU) 2022/2464 on corporate sustainability reporting and the Sustainability Reporting Standards (EU) 2023/2772. During 2024, a preliminary double materiality analysis was carried out to understand the company's impact on people and the environment and to analyze impacts, risks and opportunities across the value chain. In addition, 2024 saw the start of the design of action plans, metrics and targets for key materiality matters.

Musti Group's preliminary key materiality matters relate to climate change, the circular economy, its own workforce, value chain employees, consumers and end-users, and good governance. These will be reported in accordance with Directive (EU) 2022/2464 for the first time from the financial year 2025 in 2026.

#### Social

At Musti Group, social responsibility includes the well-being and development of our own staff and the safety of our products from the point of view of both pets and pet owners. The Group's important policies include managing the privacy and security of both its own workforce and its customers. These principles are managed through the Data Protection Policy and the Data Security Policy.

#### Employees

Musti Group employed almost 2 200 people, of whom 88 % were women and 12 % were men. Approximately 79 % of the staff had permanent employment and approximately 21 % were part-time.

The Group's values of expertise, trust and the Musti corporate culture define the way in which work communities operate. The Group's internal policy, which describes the People Principles Policy and the Equality Plan, is the basis for human resources management and development.

The Musti Group is committed to equal treatment of employees and the promotion of diversity. At Musti, every employee has equal opportunities for training, personal development and career advancement. As an employer, Musti provides safe working conditions for all its employees, investing in employee well-being, occupational health and work capacity management.

Musti respects the privacy and personal qualities of everyone and does not tolerate any form of discrimination, intimidation or harassment at work. Everyone working at Musti must treat all colleagues and customers with kindness and respect. The Musti Group Code of Conduct describes the ethical principles that apply to every Musti employee.

The aim is to create a thriving work community that is safe and where trust, respect and encouragement are the basis of all activities. By developing management skills and staff competence, the Musti Group creates the conditions for high-quality work and the achievement of objectives. Musti Group's corporate culture is based on trust and sharing. Musti Group measures employee engagement and satisfaction annually through the Musti View survey and eNPS surveys.

Musti Group was ranked second among medium-sized Finnish companies in the Nordic Business Diversity Index survey, which was published in 2024. The Nordic Business Diversity Index assesses, and scores publicly reported diversity aspects of companies by looking at a variety of variables, including gender, age, nationality and education.

Employee-related risks include the reputation of Musti Group as an unattractive employer, the loss of motivated and skilled staff and high employee turnover. Musti Group invests in employee wellbeing and training, good leadership and team spirit, and employee involvement in the development of policies. Competent and motivated staff enable the strategy to be implemented and the objectives to be achieved.

#### Stakeholders in the value chain - customers and product suppliers

Musti Group has put the well-being of pets and people first, with the goal of happy and satisfied pet parents and pets. This means quality and safe products and services, and strong professionalism in service situations. With expert advice, a wide range of services, high quality pet food and a variety of products and accessories, we help pet owners take care of their pets' needs and well-being.

Customer satisfaction is monitored using the NPS indicator. In 2024, Musti Group's overall NPS score was 76.7 on a scale of -100 to +100 (75.3/2023). During 2024, Musti Group expanded the NPS measurement points and harmonized practices across the Nordic countries.

In the big picture, important aspects of product safety management include product and supplier selection, product information to be provided and instructions for use. Musti Group works closely with product suppliers to ensure compliance with product requirements, product quality and safety. Suppliers must have an effective traceability system in place, allowing the raw materials and packaging used to be traced back where necessary. Product suppliers are committed to the Musti Group Supplier Code of Conduct, with a 99.2% commitment rate in 2024. During 2024, Musti Group has developed a supplier self-assessment and audit system, work will continue in 2025.

Musti Group manufactures pet food and treats in its own factory in Finland. Product safety at the production plant is based on a certified food safety management system (FSSC 22000), which is audited annually both by a third party and through internal audits. The product safety system is risk-based and is based on the HACCP principles (analysis of biological, chemical and physical hazards), their prevention and the management of deviations from the safety standards. During 2024, the warehouses have also adopted HACCP principles.

The reasons for the recall of SMAAK products in late 2023 were immediately analyzed and development measures were initiated, which continued into 2024. In addition to these development measures, Musti Group has extensively refined its processes related to, among other things, the selection of products and raw materials, the handling of customer feedback, the management of deviations and ensuring traceability. The recall process has also been refined.

Non-conformities in product safety management and supply chain can pose a risk to the health of pets or pet owners. These can have significant impacts on customer trust and affect the company's financial performance or reputation. The loss of a significant supplier or disruptions in the supplier's operations can affect product availability and cause a decrease in sales or customer satisfaction. To manage risks, we require our operators to invest in quality control and product safety management and we work closely with them.

Musti Group's own pet food factory has risks related to production processes, such as equipment failures, raw material availability problems, accidents, and production interruption risks. These risks are managed using a product safety management system (FSSC 22000).

Leaks related to both employee and customer personal data have been identified as a risk related to cybercrime. The risk is managed with up-to-date and updatable data protection systems. The coverage and quality of data security are validated annually. In addition, audits are conducted both at the group level and in key areas of data protection.

#### Environment

Musti Group is committed to reduce its environmental impact. The most significant environmental impacts of the Group's stores, offices and warehouses arise from energy consumption (electricity, fuels for cars and transportation), waste generated, and packaging materials used. The environmental impacts and emissions of product transport logistics are managed in cooperation with transport partners.

During 2024, the Group's greenhouse gas emissions calculation was refined for Scope 1 and 2, and the most relevant Scope 3 emission categories of the value chain were assessed. Scope 3 emission calculation will begin in 2025.

In the double materiality analysis conducted in 2024, climate change mitigation and circular economy emerged as key sustainability issues for the Group. Measures, indicators and targets related to these environmental impacts, as well as updated key operating principles, will be implemented in 2025.

Minimizing environmental impacts has been a guiding principle at Musti Group's own pet food factory in Finland since the factory was designed and started pet food manufacturing in 2020. Renewable energy is used in the production processes of the production plant, of which approximately 20 percent is generated by solar panels. The heat generated by the production equipment is collected and used in the factory processes. The recovered heat is utilized, among other things, to heat the washing water used on the production line for frozen products. Energy is also produced from biowaste. Oat husks and other biowaste from oats used as raw materials for dry pet food are transported to energy plants, where they are used to make biogas.

The environmental risks identified at Musti's own pet food factory include fire and wastewater leaks, which are managed through regular equipment condition inspections, proactive maintenance, and alarm and monitoring equipment. There were no environmental damages at the production facility during 2024.

Consumer perceptions of climate change and the changes in their behavior caused by it can be both a risk and a business opportunity for Musti Group. The topic is being monitored and the product range is being developed in a sustainable direction.

Global warming and the resulting weather extremes such as storms, floods, and prolonged heat waves will affect production conditions globally in different raw material production areas in different ways. These changes may also have a long-term impact on the availability and price of feed raw materials and products in Musti's supply chain. Climate change phenomena may also have an impact on global supply chains and transport routes, which affects Musti's supply chain management. To prepare for these chains of events, Musti Group works in collaboration with value chain actors to promote the reduction of environmental impacts and mitigate climate change.

#### **Good governance and business ethics**

Musti Group is committed to respect human rights in accordance with international declarations\*. The company is a member of the United Nations Global Compact and the amfori BSCI organization promoting sustainable business.

The principles governing respect for human rights and ethical business are Musti Group's own Code of Conduct, the Supplier Code of Conduct and the amfori BSCI Code of Conduct for suppliers operating in high-risk countries. Musti Group employees must complete the Code of Conduct online training. During 2022–2024, 78% of employees completed the training.

Musti Group has been a member of the amfori BSCI organization (amfori Business Social Compliance Initiative) since 2017. Third-party BSCI audits are carried out for all suppliers located in high-risk countries.

Musti Group promotes fair business practices and does not participate in illegal or trade-restrictive activities. The company operates in accordance with fair competition and applicable regulations and has set guidelines for its employees on the giving and receiving of gifts or benefits. Gifts or benefits may never be a condition of a contract or business partnership.

The company has a Whistleblowing reporting channel on its public website for reporting concerns of stakeholders. Concerns made to the channel are anonymous, they are processed, and the necessary corrective measures are assessed. During 2024 one concern was reported to the reporting channel, which was not a suspicion of human rights violations or corruption and did not cause any further actions.

Responsible and ethical business practices, both in Musti Group's own operations and in the supply chain, are important principles for business continuity and reputation management, where failure can cause negative publicity and affect consumer purchasing decisions. Risk is managed by complying with legislation and ethical business guidelines, as well as by training staff and addressing concerns in the most appropriate manner for each case.

\* Fundamental principles of Human Rights, as defined by the Universal Declaration of Human Rights (United Nations 1948); Fundamental Principles of Rights at Work (ILO 1998); Convention on the Rights of the Child (United Nations 1989); United Nations Guiding Principles on Business and Human Rights, UNGP (United Nations 2011); OECD Guidelines for multinational enterprises (OECD 2023).

#### **Risks and uncertainties**

Musti Group's risk profile follows the general risk level of the retail and grocery trade. The industry is not particularly cyclical and not subject to rapid changes. The company regularly monitors changes in the risks and their impact on the business. The company implements risk management continuously and systematically according to a scheduled process. The risk management process ensures that risks related to the Group are identified, estimated, and controlled in a proactive way and the management of risks is monitored. The company's risk management includes, among others: identification and review of risks, risk assessment, determining and implementing control measures for the identified risks, and monitoring and reporting of risks.

The following describes the risks and uncertainties that are considered significant for Musti Group.

#### Risks relating to the macroeconomic environment and inflation

Increasing geopolitical instability could have a significant impact on the global economy and business environment. Although Musti Group sells products, a recession may have a negative impact on consumer confidence and sales.

General cost level has risen in 2023 following price increases in energy, raw materials, and freights. Musti Group's cost level has increased accordingly and is reflected in higher retail prices to maintain profitability. Higher inflation will also contribute to higher interest rates. These may have an impact on consumer behavior and price competition.

#### **Risks relating to changes in the competitive environment**

Pet products and services retail industry has become increasingly competitive. Musti Group's competitors include large grocery retailers, smaller pet specialist stores, online competitors (including general online stockists and internet pure plays), home and garden stores, pet service providers, as well as veterinary clinics. Many are competing for the same customers with similar offerings, and it is easy to make comparisons between competitors. The large share of own and exclusive products partly mitigates this risk. If Musti Group fails in this competition, its sales and profitability would decrease.

#### **Risks relating to quality of products and services**

A failure in product safety control or supply chain quality assurance may result in financial losses, loss of customer trust or in the worst case, a health hazard to a pet. Musti Group's pet food factory's manufacturing processes are subject to risks, such as equipment breakdown, raw material availability, accidents, damage, and interruption risks. These risks are managed through certifications and continuous EHSQ work.

Customers may also make allegations against Musti Group publicly concerning the quality of the company's product or services. This could result in a reputational loss for Musti Group.

#### **Risks relating to changes in customer preferences**

Customers' buying patterns may change more rapidly than what the company has anticipated. With the rising trend of online shopping customers expect a simple and consistent shopping experience and fast delivery regardless of the sales channel. Brick-and-mortar stores are expected to offer experiences, a place to meet, and information. Various sustainability aspects in products and services are increasingly important to customers. If the company fails to address the new purchasing patterns and sustainability requirements, there is a risk that the investment in assortment, sales channels and services will not generate the intended results.

#### **Risks relating to sourcing of products**

A loss of significant supplier or an inability to source products from such suppliers that meet Musti Group's standards and requirements, or a supply reduction or cost increases demanded by suppliers may have a material adverse effect on the customer relationships and competitive position.

#### **Risks relating to inventories**

A lot of the company's capital may be tied up in carrying the inventory if the company is unable to forecast accurately customer demand. Operative difficulties in managing the inventory and obsolescence may increase costs of inventory or result in selling the goods at discount which may have a negative impact on profitability.

#### **Risks relating to logistics**

The company's distribution center in Eskilstuna is its distribution hub. Most goods from suppliers are delivered to Eskilstuna and then distributed to shops and online customers. Collecting the logistics in one location carries certain risks, for example, disruptions to communications and information technology infrastructure, as well as fire and strikes, which may result in business discontinuity or lower sales.

#### **Risks relating cybercrimes**

The frequency of professional cybercrimes is growing especially after the war in Ukraine begun. This has increased the risk relating to business continuity and loss of critical information. Cyber-attacks may target, for example, data systems critical for business continuity, or personal data. Cyber-attacks may result in disruptions in sales, personal data leakages, financial losses, compensation for damages or reputational damages.

#### **Risks relating to employees**

If Musti Group is not perceived as an attractive and sustainable employer brand, the company may not be able to safeguard skilled and motivated employees. The prerequisite for execution of strategy and reaching the set targets is to be able to maintain insightful and motivated employees.

#### **Risks relating to currency fluctuations**

As a significant part of Musti Group's business is in countries outside the eurozone, Musti Group's balance sheet and results are exposed to fluctuations in foreign currency exchange rates. The main transaction exposure currencies are USD and GBP in which Musti Group of companies has outflows related to purchases. Translation exposure arises from subsidiaries reporting in SEK and NOK as results and balance sheet items are consolidated to Musti Group level.

#### Seasonality

Musti Group's business is characterized by a generally limited seasonality effect, with the high share of recurring food and stable products of net sales translating into low seasonality within years. However, there are certain intra-year fluctuations that affect cash flows, sales and profitability. Usually, the period between July to December has higher sales and profitability margins compared to January to June, driven by higher sales of accessories and other seasonal products.

The volumes and timing of Musti Group's sales may vary somewhat due to weather conditions, with sales of pet clothing being primarily impacted. Cold winters and rainy weather generally result in higher sales of coats and shoes for pets.

#### **Outlook for the financial year 2025**

After several years of above average growth rates, the pet care market experienced slower growth in 2024 both in the Nordics and globally. This was affected by three main drivers that combined created a temporary drag. Firstly, registrations of puppies and kittens were below the trend after peak cohorts during the covid period 2020 – 2022. As a result, pet ownership level is high increasing the addressable market for many years to come with a long positive tail effect, but new registrations were softer in the year and thus contributing less to year-on-year growth. In the Nordics, both Finland and Sweden puppy registrations were down -8% in 2024 compared to 2023. Secondly, especially 2023 the market growth was partly driven by global inflation, while in 2024 the pricing environment was stable. Thirdly, the wider Nordic consumer climate was challenging with a relative decrease in consumer spending power. This affected demand for discretionary items such as clothing and beds where postponing purchases is an option, while non-discretionary consumable categories contributing majority of market value such as food, litter and treats remained resilient underpinned by repeat purchasing behavior.

The underlying trend of pet parenting that drives long-term structural market growth remains robust. Entering 2025, our expectation is a gradual return to long term market growth levels of approximately 4%. This view is supported by normalization of the key factors that have suppressed market growth in 2024. Number of puppies and kittens that has been a drag on growth after covid related peak levels are stabilizing and returning to long term average levels. Macro forecasts indicate improving consumer spending power across the Nordic countries, supported by improving GDP outlook, decreasing interest rates and gradual wage increases.

#### **Board of Directors' proposal for profit distribution**

The parent company's distributable funds total EUR 128,111,254.11 of which the result for the financial year is EUR -2,915,649.09. The Board of Directors proposes to the Annual General Meeting that no dividend will be paid for the financial year ended on 31 December 2024.

Helsinki, 13 March 2025 Board of Directors

## Notes to Musti Group plc's financial statements

#### **1. BASIS OF PREPARATION**

This section presents the accounting principles applied by the Group for the part that they are not presented in other notes. These principles have been applied consistently for all the periods under review, unless otherwise stated. The notes contain the relevant financial information as well as a description of the accounting policies and key estimates and judgements applied for the topics of the individual note.

#### How should I read the accounting principles of the Musti Group?

The accounting principles used for the financial statements of Musti Group are described at the beginning of each note to help understand each area of the financial statements. The following table summarizes the notes to each accounting policy and the relevant IFRS standard related to the note.

Accounting principle	Note	IFRS standard
Segment information and net sales	2.1 Segment information and net sales	IFRS 8, IFRS 15
Employee benefits and share-based payments	2.3 Operating expenses 2.4 Share-based payments	IAS 19, IFRS 2
Business combinations	3.1 Business combinations	IFRS 3
Intangible assets	3.2 Intangible assets, 3.3 Group goodwill and impairment testing	IAS 36, IAS 38
Associated companies	3.4 Associated companies	IAS 28
Property, plant and equipment	3.5 Property, plant and equipment	IAS 16, IAS 36
Leases	3.6 Leases	IFRS 16
Inventories	4.1 Inventories	IAS 2
Financial assets and liabilities	5.2 Financial assets and liabilities	IAS 32, IFRS 7, IFRS 9, IFRS 13
Financial risk management	5.1 Financial risk management	IAS 32, IFRS 7, IFRS 9, IFRS 13
Operating leases	5.3 Commitments and contingent liabilities	IAS 37
Equity	5.6 Shareholders' equity	IAS 1
Related party transactions	6.1 Related party transactions	IAS 24
Taxes	6.2 Taxes	IAS 12

#### **1.1 General information**

Musti Group's line of business is retail sales of pet products in Finland, Sweden, Norway and the Baltics. Furthermore, the Group provides pet wellbeing services in some of its stores, as well as veterinary services in Sweden, Norway, Estonia, Latvia and Lithuania. The Group's parent company is Musti Group plc, domiciled in Helsinki, Finland, and its registered address is Mäkitorpantie 3 B, FI-00620 Helsinki, Finland. The parent company's shares are listed on Nasdaq OMX Helsinki Stock Exchange. A copy of the consolidated financial statements is available at the Group's website www.mustigroup.com or at the company's headquarters Mäkitorpantie 3 B, FI-00620 Helsinki, Finland.

The Board of Directors of Musti Group plc has approved the financial statements for publication on 13 March 2025. Under the Finnish Limited Liability Companies Act, the shareholders may accept or reject the financial statement in the Annual General meeting of the shareholders held after the publication. The Annual General Meeting is also entitled to amend the consolidated financial statements.

#### **1.2 Accounting principles**

These consolidated financial statements of Musti Group have been prepared on a going concern basis for the financial year 2024 covering the period from 1 October 2023 to 31 December 2024. Musti Group's financial year was changed to calendar year during the reporting period, and therefore the financial year 2024 covers 15 months. The financial year was from 1 October to 30 September prior to the change. Due to the extended financial year, the amounts presented in the financial statements are not entirely comparable. As Musti Group has been a part of Sonae Group since March 2024, the financial year was aligned with the parent group.

Musti Group's consolidated financial statements have been prepared in compliance with the International Financial Reporting Standards (IFRS) adopted in the European Union, including IAS and IFRS standards and their SIC and IFRIC interpretations in effect on 31 December 2024. In the Finnish Accounting Act and ordinances based on its provisions, IFRS refer to the standards and their

interpretations adopted for application in the EU in accordance with the procedures as set in regulation (EC) No 1606/2002. The notes to the consolidated financial statements also satisfy the requirements of the Finnish accounting and corporate legislation that complements the IFRS standards.

Consolidated financial statements are presented in thousand euros and figures have been rounded to the nearest thousand, and due to this, the total sum of the presented individual figures may differ from the presented total sum. The consolidated financial statements have been prepared based on initial acquisition costs, except for financial instruments described later that are measured at fair value through profit and loss.

The company's operating currency is euro, which is also the company's and the Group's reporting currency.

#### Translation of items in foreign currencies

The items in the financial statements of the Group companies are valued in the currency of each company's main economical operating environment (operating currency). The figures presented in the consolidated financial statements are in thousand euros, unless stated otherwise.

Transactions conducted in foreign currencies are converted to the operating currency using exchange rates prevailing on the transaction date. Exchange rate gains and losses arising from payments related to these transactions and conversion of monetary assets and liabilities nominated in foreign currencies using the exchange rates prevailing at the end of the period are recognized through profit and loss.

In the consolidated financial statements, the profit and loss statements of the foreign subsidiaries have been converted into euros using the average rate of the financial year, and the balance sheet items have been translated using the exchange rates prevailing on the balance sheet date. The translation differences arising from subsidiary net investments and non-current subsidiary loans without agreed settlement dates are recognized through Other Comprehensive Income (OCI) to cumulative translation adjustments under equity.

## **1.3** Material accounting estimates and determinations based on the management's judgement

The Group's material accounting principles are mainly described in the note that relates to the matter in question. Preparation of Musti Group's consolidated financial statements require estimates, judgement and assumptions that may impact the application of the accounting principles and the amounts

presented in the balance sheet as at its date. In addition, they impact on the amount of income and costs recognized for the financial year. The actual amounts may differ from previous estimates and determinations based on the management's judgement.

The estimates and determinations based on management's judgement are reviewed regularly. Changes in accounting estimates are recognized for the period when the estimate was adjusted, as well as for all subsequent periods.

Sources of uncertainty and determinations based on the management's judgement, which have been identified in the Group and are deemed to satisfy these criteria, are presented in connection with the items that are deemed to be affected by them. The table below sets forth the most significant situations where estimates or the management's judgement have been applied, as well as references to their descriptions.

Accounting estimates and management judgement	Note
Net sales and contractual liabilities	2.1 and 4.3
Business combinations	3.1
Goodwill impairment	3.3
Inventory valuation	4.1
Leases	3.6
Share-based payments	2.4
Deferred taxes	6.2

#### **1.4 Group information**

The following note summarizes the general accounting principles, as well as the principles and accompanying notes relating to the consolidation of a group. The consolidation package includes notes to help you understand the overall structure of the group and its computing environment. The notes provide information on the classification of holdings and the principles of consolidation.

The table below sets forth details of the parent company and the Group's subsidiaries as of 31 December 2024. Unless stated otherwise, their entire share capital consists of shares held directly by the Group, and the ownership share corresponds to the voting rights of the Group. The registration country of the companies is also their main operating area.

#### **Subsidiaries**

Companies controlled by the Group are subsidiaries. Control exists when the Group has more than half of the voting rights of a subsidiary or otherwise exerts control over the subsidiary. The Group controls a company when it is exposed, or has rights, to variable returns from its involvement with the company and can affect those returns through its power over the company. Subsidiaries are consolidated from the date on which the Group gains control.

Mutual shareholding is eliminated by using the acquisition cost method. The cost of assets acquired is determined based on the fair value of the acquired assets as at the acquisition date, the issued equity instruments and liabilities resulting from or assumed on the date of the exchange transaction. The identifiable assets, liabilities and contingent liabilities acquired are measured at the fair value at the acquisition date, gross of non-controlling interest.

Intragroup transactions, receivables and payables, unrealized profits and internal distributions of profits are eliminated. The financial statements of the subsidiaries are adjusted to comply with the accounting principles applied by the company, if necessary.

Financial year of the Group's subsidiaries is calendar year except for the Baltic Pet City companies where the financial year is currently 1 May – 30 April due to timing of the acquisition. Pet City companies have been consolidated as of December 2024 based on the companies reporting.

#### **Subsidiaries**

	Country of origin	Group ownership, %
Musti Group Nordic Oy	Finland	100.0
Musti ja Mirri Oy	Finland	100.0
Peten Koiratarvike Oy	Finland	100.0
Premium Pet Food Suomi Oy	Finland	100.0
Arken Zoo Syd AB	Sweden	100.0
Arken Zoo Holding AB	Sweden	100.0
Arken Zoo AB	Sweden	100.0
Zoo Support Scandinavia AB	Sweden	100.0
Djurfriskvård Falun AB	Sweden	70.0
Ninas Värld Arninge AB	Sweden	70.0
Musti Norge AS	Norway	100.0
Pet City OÜ	Estonia	100.0
Eesti Veterinaaria Kliinikum OÜ	Estonia	100.0
Pet City SIA	Latvia	100.0
UAB Pet City	Lithuania	100.0
UAB Pet City Klinika	Lithuania	100.0

#### **Associated companies**

Associates are entities in which the Group has a significant influence but not control or joint control. A holding of 20% or more of the voting power (directly or through subsidiaries) will indicate significant influence unless it can be clearly demonstrated otherwise.

Investments in associates are accounted for using the equity method, and on initial recognition, they are recognized at cost. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. The Group's share of profits or losses of the associate is recognized as a separate item.

In December 2024, Musti Group acquired 40% of the shares of Norwegian Petrus Veterinærer AS. As Musti Group holds 40% of the voting rights and has three seats in the Board of Directors, Musti has a significant influence in the company.

#### **1.5 New and amended IFRS standards and IFRIC interpretations**

#### Amendments and annual improvements to IFRS standards

Musti Group has applied amendments and annual improvements to IFRS standards effective from the beginning of October 2023. Amendments and annual improvements have not had a significant impact on the financial statements.

The Group will apply the new or amended standards as they become effective. Musti Group estimates that IFRS standards or IFRIC interpretations that are published at the time when these financial statements have been prepared and will become effective in the future, will not have a material impact on the Group's financial statements except for the new IFRS 18 standard which will be applied for reporting periods beginning on or after 1 January 2027. The new standard focuses on presentation and disclosure in financial statements, and it will replace IAS 1. IFRS 18 will have a material impact on Musti Group's financial statements.

#### **2. OPERATING RESULTS**

This section focuses on financial results of Musti Group. In the notes on the following pages, the operating profit of the group is explained by component.

Musti Group provides pet food products and accessories to its customers, as well as various welfare and veterinary services in its specialised stores and pet clinics. Pet food products and accessories are available in stores and online. Musti Group's chain included 415 stores on 31 December 2024 (30 September 2023: 342), of which own stores amounted to 411 (30 September 2023: 330).

#### 2.1 Segment reporting and net sales

#### **Reporting segment**

Musti Group's reporting segments are primarily based on geographical regions Finland, Sweden and Norway. The segment structure is based on geographical division where Finland, Sweden and Norway are separated to individual operating segments based on how the chief operating decision-maker monitors the business operations. In addition, the management monitors new market areas separately, for which the new operating and reporting segment, New Markets, was formed in the end of 2024. Currently the segment comprises of the Baltic countries. In other items, Musti Group reports the Group functions, including the operations of the headquarters, the central warehouse and production.

Segment information is reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is the Group's Management Team, including the CEO. The Management Team is responsible for allocation of resources and reviewing performance, considering its composition and active involvement in material strategic and operative decision-making. The net sales of the reporting segments are derived from retail sales, as well as franchising sales and wholesales in Finland, Sweden, Norway and the Baltics. Online sales of Vetzoo is reported fully under Sweden.

Country directors of the geographical regions are responsible for their business area, and they are members of the Group's Management Team. Decisions on the offering, product pricing and marketing measures are determined at the country level. The business needs vary among the countries, as their maturity is very different. Finland is a very stable and mature market; Sweden is growing, and Norway is still in growth phase, and as such, their investment needs and profitability differ significantly from each other. Musti Group entered the Baltic markets in the late 2024.

The Group's Management Team reviews the results of the segments based on net sales, adjusted EBITDA and operating profit before amortisation of intangible assets (EBITA). Transactions outside

the scope of the ordinary course of business is treated as items impacting comparability, and they are allocated to the segments. For other parts, the management monitors performance in accordance with IFRS. Financial income and expenses are not allocated to the segments, as the Group Treasury manages the Group's cash and cash equivalents and financial liabilities. Similarly, share of profits in associated companies and income taxes are not allocated to the segments.

In its reporting, the Group's Management Team does not allocate balance sheet items to the segments, and as such, they are not allocated to segments on this note.

#### Segments 2024

Profit/loss for the period						26,487

\* Net sales include sales of products and services to external customers. There are no internal net sales between the segments.

#### **Revenue recognition**

#### Accounting principles

IFRS 15 establishes a five-step model that is applied to the amount and timing of recognition of sales revenue. Under the standard, revenue is recognized when the entity satisfies its performance obligation, meaning that the customer obtains control of the goods or services. Control is transferred either over time or at a certain moment, and the revenue is recognized in an amount that reflects the consideration

to which the entity expects to be entitled for those goods or services. IFRS 15 principles are applied using the following five-step model:

- 1. Identify the contract with a customer
- 2. Identify the performance obligations in the contract
- 3. Determine the transaction price
- 4. Allocate the transaction price to the performance obligations in the contract
- 5. Recognise revenue

The standard requires the entity to exercise judgement when applying the five-step model to contracts with its customers. When exercising judgement, material facts and circumstances used for determining if the performance obligation has been satisfied and the revenue is to be recognized are taken into consideration.

#### Significant determinations based on the management's judgement

Musti Group's management has applied significant judgement in connection with the right to return products and the loyalty club bonuses. The amount of the consideration to which Musti Group expects to be entitled may vary based on the above-mentioned sub-areas. These sub-areas, that are subject to the management's judgement, are addressed more in detail in the section for recognition below.

#### Sales of goods and revenue recognition (stores, online and franchising stores)

Majority of the Group's sales revenue originates from retail sales of goods in its stores. The goods sold in the stores comprise pet food and accessories. The sales are mainly carried out in cash or using credits cards, and the revenue from the sales of goods is recognized at the time of transfer when the customer gains control of the goods.

Customers may also purchase gift cards and use them for paying goods in the stores. At the time of selling a gift card, Musti Group recognizes a corresponding liability in its balance sheet. Sales revenue is recognized when the customer uses the gift card.

Revenue from orders made online and sales to franchising partners is recognized when all products related to the order have been delivered to the customer or the franchising partner, and control of the

Board of Directors' Report Financial Statements

• )

goods is transferred to the buyer at a specific moment of time. A liability is recorded on the goods in transit delivered from online stores. The provision on goods in transit is included in the contractual liabilities.

Revenue from contract manufacturing of pet food is recognized at the time of transfer when the customer gains control of the goods.

Net sales are measured at the fair value of the consideration received or to be received. Net sales include proceeds from the sales of goods and franchising fees at the price which the company expects to receive adjusted with the indirect taxes, actual and estimated product returns, campaign discounts, Loyalty club bonuses and indirect taxes, as well as translation differences from sales in foreign currencies.

#### **Contingent considerations: right to return products**

Goods sold directly to consumers in stores and online include a right to return products within a period of 14 days in Finland and 30 days in Sweden and Norway. In the Baltic countries, the customers have a right to return the purchases within 14 days. Net sales are adjusted by the expected number of returns. For more information of the return policy, see Note 4.3 Trade and other liabilities. In addition, a customer may receive a discount, for example, in the form of campaign discounts.

For the right to return products, Musti Group estimates the amount of the consideration that it is entitled to receive against the transfer of promised goods to the customer.

Musti Group includes in the transaction price the estimated amount of the contingent consideration only to the extent that it is very likely that the recognized sales revenue is not required to be reversed significantly when the uncertainty related to the contingent consideration ceases to exist at a later moment of time. Musti Group estimates the contingent consideration based on the most likely amount of money.

#### **Franchising fees**

Musti Group carries out franchising operations in Sweden, the franchising fees are based on an upfront fee and a fee based on the franchising stores net sales. Fees related to franchising agreements are recognized over time.

#### Sales of services and revenue recognition

Musti Group provides welfare, veterinary and trimming services. A customer benefits from these services when it is provided, and as such, the revenue is recognized over time when Musti Group satisfies its performance obligation.

#### Net sales by channel

EUR thousand	1 Oct 2023 - 31 Dec 2024	%	1 Oct 2022 - 30 Sep 2023	%
Store sales	413,169	73.7	322,278	75.7
Online sales	136,359	24.3	97,808	23.0
Other sales	11,044	2.0	5,653	1.3
Total	560,571	100.0	425,740	100.0

Sales of services are included in the retail store sales. The share of services in the net sales is not significant, and as such, it is not presented separately. Other sales items include franchising fees and wholesales. Musti Group does not have any individual customer with a share of over 10% of Musti Group's total net sales.

#### **Customer loyalty programs**

The group companies operate loyalty programs where the members accrue bonuses from their purchases made in the stores. The net sales of these companies are adjusted with the customer refunds in the loyalty program as a part of the sales transaction. Simultaneously, accrued liability on bonus is recognized on the balance sheet. Corresponding sales in recognized when the customer refunds are used, or they expire. The expected refunds of the loyalty program bonuses are based on historical information. Musti updates the estimate quarterly.

#### **Contractual amounts recorded in balance sheet**

The Group recognizes in trade receivables the expected considerations to which it is entitled when goods are transferred, or services provided to a customer before the customer pays the consideration (see Note 4.2 Trade and other receivables).

Correspondingly, a liability is presented in Note 4.3 Trade and other liabilities when a customer pays the consideration before the goods are transferred or services provided to the customer. In addition, the contractual liabilities include liabilities related to gift cards, Loyalty club bonuses, right to return products and goods in transit.

#### tements

#### 2.2 Other operating income

#### Accounting principles

Other operating income includes income that does not relate to the income from regular sales operations. Other operating income includes, among others, received marketing contributions and subsidies, insurance compensations, capital gains on fixed assets and rental income.

#### **Other operating income**

EUR thousand	1 Oct 2023 - 31 Dec 2024	1 Oct 2022 - 30 Sep 2023
Rental income	775	437
Marketing contribution	4,454	1,835
Other received contribution	298	220
Fair value gains on acquisition	0	2,440
Other items	75	120
Total	5,602	5,052

#### 2.3 Other operating expenses

#### **Accounting principles**

Other operating expenses include other expenses than cost of goods sold. The main items included in the other operating expenses relate to personnel costs, sales, marketing and premises.

All Musti Group's pension plans are defined contribution plans. In defined contribution plans, the Group pays fixed contributions to the pension insurances. The Group does not have legal or factual obligations to pay any additional amounts, if the insurance does not include sufficient assets for paying to all employees all benefits based on their service during the present and previous financial periods.

#### **Number of personnel**

#### 2.4 Share-based payments

The Note below provides information and describes the impacts of the Group's share-based incentive plans. More information on share-based incentive plans can be found in the separate Remuneration report.

#### **Accounting principles**

The fair value of share-based payments is measured on the day which the share-based payment plan is agreed upon between the counterparties and will be recognized as an expense over the vesting period. The settlement, if the set targets are met, is a combination of shares and cash. The component settled in shares is recognized in shareholders' equity and the payment settled in cash in liabilities. However, for awards with net settlement features, the cash-settled component for withholding tax payment is treated as equity-settled and recognized in shareholders' equity. At each statement of financial position date, the Group revises its estimates of the number of shares that are expected to be distributed. The impact of the revision of the original estimates, are recognized in the statement of income.

#### Significant determinations based on management's judgement

At each balance sheet date, the management revises its estimates for the number of shares that are expected to vest. As part of its evaluation, Musti Group considers the expected turnover of the personnel benefiting from the incentive plan and other pertinent information impacting the number of shares to be vested. In addition, the measurement of the fair value for the arrangement and the parameters used in the measurement of the fair value requires judgement from the management..

#### Share-based commitment and incentive schemes

The Board of Directors of Musti Group plc decided on 7 May 2020 on a share-based long-term incentive plan for the management team and the key employees, the Performance Share Plan (PSP) 2020-2024. On 16 December 2022, the Board of Directors of Musti Group plc decided to launch a new share-based incentive plan for Musti Group's key employee, the Performance Share Plan (PSP) 2023-2027.

The aim of a share-based compensation plan is to align the objectives of the shareholders and key employees for increasing the value of the company in the long-term. The plan is also to commit the key employees to the company and to offer them competitive incentive schemes that are based on earning and accumulating shares

#### Performance Share Plan 2020–2024

The Performance Share Plan consists of three performance periods, covering the financial years of 2020–2022, 2021–2023 and 2022–2024. The Board of Directors will decide separately for each performance period the plan participants, performance criteria, and the related targets, as well as the minimum, target, and maximum reward potentially payable based on target attainment at the beginning of a performance period.

#### Performance Share Plan 2023-2027

The Performance Share Plan 2023–2027 consists of three consecutive performance periods, covering the financial years of 2023–2025, 2024–2026 and 2025–2027. The Board of Directors decides on the plan's performance criteria and targets to be set for each criterion at the beginning of each performance period.

The potential reward based on the plans will be paid party in the company's shares and partly in cash after the end of each performance period. The cash proportion is intended for covering taxes and tax-related costs arising from the reward to a participant. However, the company has the right to pay the reward fully in cash under certain circumstances.

The expense for the performance share plan for the performance period 2020-2022 was recognized over the vesting period and rewards were paid in winter of 2023.

In performance period 2021-2023, the plan had 30 participants at most and the targets for the Performance Share Plan (PSP) were related to the Group's total shareholder return (TSR) and adjusted EBITA. The maximum number of shares to be paid based on the second performance period was approximately 137.600 Musti Group plc's shares, which corresponded to approximately EUR 2.9 million calculated with the volume weighted average share price on the trading day preceding the Board's decision. The number of shares represented gross earning, from which the withholding tax and possible other applicable contributions are deducted, and the remaining net amount is paid in shares. However, the company has the right to pay the reward fully in cash under certain circumstances. The rewards from the second performance period were paid out fully on cash in the winter of 2024.

The total expense for the share-based payments was recognized over the vesting period, which was 36 months for the 2021–2023 plan. No expenses were recognized for the plan during the financial year 2024 (2023: EUR 349 thousand). The cost related to share-based payments is recognized in personnel expenses. The share price at the grant date of the PSP was EUR 21.04. The fair value of the share plan at the grant date was in total EUR 1.4 million. The fair value of the share plan was determined from Musti

Group's share price at the grant date less the present value of dividends expected to be paid during the performance period. Performance conditions and service conditions were accounted for by adjusting the number of instruments.

In performance period 2022-2024, the plan has 37 participants at most and the targets for the performance period relates to company's total shareholder return (TSR) and adjusted EBITA. The maximum number of shares to be paid based on the performance period is approximately 104,400 Musti Group plc's shares. The number of shares represents gross earning, from which the withholding of tax and possible other applicable contributions are deducted, and the remaining net amount is paid in shares. However, the company has the right to pay the reward fully in cash under certain circumstances. Potential rewards from the performance period will be paid out during winter of 2025.

The total expense for the share-based payments is recognized over the vesting period, which is 36 months in the 2022–2024 plan. For the 2022–2024 plan, the compensation is measured during performance period in cash, and only after performance period at grant date translated into shares. The expense recognized for 2024 amounted to EUR 23 thousand (2023: EUR 13 thousand). The cost related to share-based payments is recognized in personnel expenses. The share price at the grant date of the PSP was EUR 26.06. The fair value of the share plan at the grant date was in total EUR 0.7 million. The fair value of the share plan was determined from Musti Group's share price at the grant date less the present value of dividends expected to be paid during the performance period. Performance conditions and service conditions were accounted for by adjusting the number of instruments.

The rewards to be paid based on the performance period 2023–2025 corresponded to the value of an approximate maximum total of 171,000 Musti Group plc shares, including the proportion to be paid in cash. In accordance with the decision of the Board of Directors of the Company, the rewards for the performance period were paid fully in cash in the spring of 2024. The target group of the plan consisted of 32 persons, including the group management team members. The reward was based on the company's adjusted EBITA and total shareholder return during financial year 2023.

The total expense for the share-based payments were recognized over the financial years 2023-2024. The expense recognized for 2024 amounted to EUR 142 thousand (2023: EUR 227 thousand). The cost related to share-based payments is recognized in personnel expenses. The share price at the grant date of the PSP was EUR 15.50. The fair value of the share plan at the grant date was in total EUR 0.7 million. The fair value of the share plan was determined from Musti Group's share price at the grant date less the present value of dividends expected to be paid during the performance period. Performance conditions and service conditions were accounted for by adjusting the number of instruments.

In the performance period 2024-2026, the plan has 30-35 participants and the targets for the performance period relates to company's total shareholder return (TSR) and adjusted EBITA. The maximum number of shares to be paid based on the performance period 2024-2026 is approximately 143,000 Musti Group plc's shares. The number of shares represents gross earning, from which the withholding of tax and possible other applicable contributions are deducted, and the remaining net amount is paid in shares. However, the company has the right to pay the reward fully in cash under certain circumstances. Potential rewards from the performance period 2024-2026 will be paid out during winter of 2027.

The total expense for the share-based payments is recognized over the vesting period, which is 33 months in the 2024–2026 plan. The compensation is measured during performance period in cash, and only after performance period at grant date translated into shares. The expense recognized for 2024 amounted to EUR 1,071 thousand. The cost related to share-based payments is recognized in personnel expenses. The share price at the grant date of the PSP was EUR 26.12. The fair value of the share plan at the grant date was in total EUR 3.7 million. The fair value of the share plan was determined from Musti Group's share price at the grant date less the present value of dividends expected to be paid during the performance period. Performance conditions and service conditions were accounted for by adjusting the number of instruments.

#### Assumptions applied in determining the fair value of share award

	Performance period FY2021-23	Performance period FY2022-24	Performance period FY2023-25	Performance period FY2024-26
Number of share awards granted, maximum, pcs	137,600	104,400	171,000	143,000
Number of plan participants at end of financial year	27	31	34	31
Share price at grant date, EUR	21.04	26.06	15.50	26.12
Assumed fulfilment of performance criteria, %	100.0%	0.0%	50.0%	50.0%
Estimated number of share awards returned prior to the end of commitment period, %	11.0%	10.0%	10.0%	10.0%

\* Gross number of shares from which the applicable withholding tax is deducted, and the remaining net amount is paid in shares.

#### **3. CAPITAL EMPLOYED**

This section describes assets that are needed in business operations, as well as business acquisition carried out by Musti Group. Information on net working capital is presented in section 4.

#### 3.1 Business combinations

Musti Group performs business acquisitions to accelerate the implementation of its strategy. During 2024 Musti Group acquired stores from its franchisees and independent entrepreneurs in Finland, Sweden and Norway as asset deals. Also, a 70% share of a veterinary clinic, Ninas Värld Arninge AB, was acquired in Sweden during the financial year. In addition, Musti Group acquired the shares of Pet City OÜ including its subsidiaries UAB Pet City, Pet City SIA and UAB Pet City Klinika, and Eesti Veterinaaria Kliinikum OÜ during the last quarter of the financial year.

#### **Accounting principles**

Acquired subsidiaries and businesses are consolidated in the consolidated financial statements from the date when Musti Group gained control over the acquired entity. Acquisition cost method is applied to the business combinations. The consideration transferred in the acquisition of a subsidiary includes the fair value of the transferred assets, incurred liabilities towards the previous owners of the acquired entity and the shares issued by the Group. Transferred consideration also includes the fair value of the asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and identifiable liabilities assumed in business combinations are initially valued at the fair value on the acquisition date. The identifiable assets include both tangible and intangible assets, such as customer relations, brands and technology.

Expenses related to the acquisitions are recognized when they incur, and they are presented in the profit and loss statement in other operating expenses.

#### Accounting estimates and the management's judgement

Net assets acquired in business combinations are measured at fair value. The fair value of acquired net assets is determined based on the market value of similar assets (tangible fixed assets) or an estimate of the expected cash flows (intangible assets). The valuation is based on the current repurchase values, expected cash flows or estimated selling prices, and it requires management's judgement and assumptions. The management believes that the estimates and assumptions used are sufficiently reliable for determination of the fair value.

#### Acquisitions 1 Oct 2023-31 Dec 2024

During the financial year 2024 Musti Group acquired eight pet stores in Sweden as business acquisitions. The total purchase price for the stores was approximately EUR 5.6 million and the resulting goodwill EUR 5.5 million. In addition, Musti Group acquired a 70% share of a veterinary clinic Ninas Värld Arninge AB in Sweden. Purchase price was EUR 0.2 million and the resulting goodwill was EUR 0.1 million. Goodwill is based on synergies from the acquisitions. The acquisitions did not have a material impact on group's net sales or result. In December 2024, Musti acquired a 40% share of a veterinary clinic Petrus Veterinærer AS in Norway amounting to EUR 2.0 million. The company is treated as an associated company.

Musti acquired the shares of Pet City OÜ including its subsidiaries UAB Pet City, Pet City SIA and UAB Pet City Klinika, and Eesti Veterinaaria Kliinikum OÜ from Magnum Group for an Enterprise Value (EV) of EUR 18.0 million, of which EUR 13.7 million was paid in cash at closing. The remaining will be settled in cash once the closing accounts have been approved by both buyer and the seller. Pet City operates 46 retail stores and 16 veterinary clinics in the Baltic countries including an e-commerce platform operating throughout the Baltic region. The store network consists of 25 stores in Estonia, 13 in Latvia and 8 in Lithuania. On the veterinary clinic side, there are 8 clinics in Estonia, 4 in Latvia and 4 in Lithuania. The aggregated turnover of the acquired operations was EUR 31.5 million in FY 2023 (EUR 28.6 million in FY 2022) and the EBITDA EUR -1.1 million (EUR -0.7 million in FY 2022). In FY 2023 Pet City had assets amounting 8.7 million (EUR 8.9 million in FY 2022) and liabilities amounting EUR 23.7 million (EUR 21.3 million in FY 2022).

Preliminary purchase price allocation for the acquisition is presented below:

EUR thousand	Pet City
Acquisition cost	
Purchase price paid in cash	18,237
Fair value of net identifiable assets acquired

Purchase price paid in cash	-13,678
Cash and cash equivalents of the acquired company	731
Expenses related to the acquisition	-385
Impact on cash flows	-13,332

#### Acquisitions 1 Oct 2022-30 Sep 2023

During the financial year 2023 Musti Group acquired five pet stores in Sweden and one in Norway as business acquisitions. The total purchase price for the stores was approximately EUR 4.7 million and the resulting goodwill EUR 4.4 million. Goodwill is based on synergies from the acquisitions. The acquisitions did not have a material impact on group's net sales or result.

Musti Group acquired the full ownership of the pet food manufacturer Premium Pet Food Suomi Oy on 3rd of April 2023 and the company became a fully owned subsidiary of Musti Group. Goodwill resulting from the acquisition amounted to approximately EUR 3.6 million that is based on several factors: we can respond to increased demand for locally and sustainably produced pet food as well as support developing our own branded food offering. Prior to the transaction, Musti Group held 49.2% of the shares in the company. The company's net sales from its previous financial year July 2021 – June 2022 was EUR 7.7 million and FAS EBITDA EUR 1.4 million. Musti Group recognized a fair value gain of EUR 2.4 million relating to the previously held share of the company in Q3 2023. The acquisition cost includes an estimated contingent consideration amounting to EUR 2.0 million. The consideration is subject to the operative effectiveness and production capabilities of the company and is maximum EUR 3.0 million.

If the company had been acquired already in the beginning of the financial year 2023, the Group's net sales would have been EUR 4.0 million higher, EBIT 0.2 million higher and profit for the period EUR 0.1 million higher than reported.

# 3.2 Intangible assets

The tables below set forth the changes in intangible assets during the financial years covered by the financial statements.

#### Accounting principles

#### Goodwill

Goodwill arises from the acquisition of subsidiaries, and it corresponds to the amount that the acquisition consideration exceeds the fair value of identifiable net assets.

Goodwill acquired in business combinations is allocated for impairment testing to the cash generating units that are expected to gain benefit from the synergies created by the combination. Goodwill is allocated to the unit at the company's lowest level where the goodwill is monitored internally for the management purposes.

Goodwill is reviewed for impairment annually or whenever events or changes in circumstances indicate to a possible impairment. The carrying amount of the cash-generating unit including goodwill is compared to the recoverable amount that is higher of the value in use or the fair value net of selling expenses. Possible impairment is recognized as an expense with immediate effect, and it will not be reversed later.

#### Other intangible assets

Other intangible assets include developments costs related to webstores, software and information technology, as well as licenses and customer relations. Intangible assets are recorded in the balance sheet when the accounting requirements of IAS 38 standard are satisfied. Intangible assets with a limited useful life are valued in the original acquisition cost and they are amortized with the straight-line method over their estimated useful life. Intangible assets are amortized over 3-10 years. Intangible assets with indefinite useful life are not amortized but tested annually for impairment. Except for goodwill, Musti Group does not have intangible assets with indefinite useful life.

# **3.3 Goodwill and impairment testing**

#### Accounting estimates and determinations based on the management's judgement

The management uses significant estimates and determinations based on judgement for deciding the level where goodwill is allocated, as well as for determining whether there are indications of impairment of goodwill.

The recoverable amount of a cash generating unit is determined based on value-in-use calculations requiring estimates. The calculations use cash flow projections based on budgets and financial estimates approved by management covering a five-year period. Cash flow forecasts are based on the Group's actual results and the management's best estimates on future sales, cost development, general market conditions and applicable tax rates. Cash flows beyond the five-year period are extrapolated using the estimated growth rates. The growth rates are based on the management's prudent estimates on future growth in the business. Management tests the impacts of changes in significant estimates used in forecasts by sensitivity analyses as described in this Note.

To carry out impairment testing, the management monitors goodwill at the level of Finland, Sweden, Norway and Baltics which are considered as the cash generating units (CGU). The CGU level is based on how the management follows the operative business. The recoverable amounts of the cash generating units are based on value in-use determined by discounted future net cash flows by the CGU.

The table below sets forth the allocation of consolidated goodwill to the Group's cash generating units:

EUR thousand	31 Dec 2024	30 Sep 2023
Finland	100,542	99,009
Sweden	74,415	69,750
Norway	5,358	5,616
Baltics	14,842	0
Total	195,157	174,375

Key assumptions in the projections are the development of net sales and key cost items, the discount rate used in the calculations as well as the terminal growth rate after the five-year forecast period. The projections have been prepared to reflect the past performance and conservative expectations for the future considering the Group's market position and the general economic environment. Cash flows beyond the five-year period are extrapolated using the terminal growth rate of 2% (2%). The discount rate used in the impairment testing is weighted average cost of capital (WACC). The discount rate reflects the total cost of equity and debt, and CGU-specific market risks. Discount rate applied in Finland was 9.2% (2023: 9.0%), in Sweden 8.7% (2023: 8.4%), in Norway 8.7% (2023: 8.5%) and 9.7 % in the Baltics.

As a result of the impairment tests performed, no impairment loss was recognized for any period presented. In 2024 the recoverable amount calculated on the basis on value-in use exceeded the carrying value by EUR 234.2 million in Finland, EUR 83.0 million in Sweden, EUR 121.1 million in Norway and EUR 2.1 million in the Baltics (2023: EUR 286.1 million in Finland, EUR 181.5 million in Sweden and EUR 149.2 million in Norway).

### **Sensitivity analysis**

The management has estimated that regarding Finland, Sweden and Norway it is unlikely that a somewhat possible change in key assumptions will cause the carrying amount of the cash generating unit to exceed its recoverable amount. The key assumptions are based on past experience and they reflect the management's perception of developments of cost and net sales. The average revenue growth used for the forecast period has been 8.0%. The long-term EBITDA margin assumption used for the impairment testing of goodwill is based on past experience of EBITDA margins and it reflects the management's perception of developments in sales prices and sales volumes during the forecast period.

The management has prepared a sensitivity analysis for the cash-generating unit of the Baltics. According to the analysis, the increase of the discount rate to 10.5% or decrease of the forecasted cash flows by EUR 2.4 million, would result in the value of the tested assets being equal to the unit's recoverable cash flow.

# **3.4 Associated companies**

Companies where the Group has a significant influence, to participate in the financial and operating policy decisions but not control or joint control them, are treated as associated companies. The Group has one associated company, a Norwegian veterinary service provider Petrus Veterinærer AS. Musti acquired 40% of the company's shares in December 2024 for EUR 2.0 million.

The investment made in Petrus Veterinærer AS was accounted for using the equity method and it was recognized at cost including translation difference arising from the translation of the investment to euros. Post-acquisition movements are adjusted against the carrying amount of the investment. In addition, the Group's share of profits or losses of the associated company is recognized as a separate item on the consolidated statement of income. The Group did not recognize any share of profits or losses of the associated company in this financial year since the acquisition took place close to the end of the financial year in December 2024.

Summarized financial information in respect of the associated company is set out in the following table:

# **Summarized balance sheet**

# 3.5 Property, plant and equipment

The tables below set forth changes in property, plant and equipment during the financial years covered by the financial statements.

Musti Group's land, buildings and structures consist of pet food production facilities. Machinery and equipment mainly comprise store and office equipment. Other tangible assets mainly include refurbishment costs of leased premises. The right-of-use items, based on lease agreements and recognized in compliance with IFRS 16, are included in the tangible assets in the balance sheet. The right-of-use items and the applied accounting principles are presented in the Note 3.6 Leases.

#### **Accounting principles**

Property, plant and equipment are presented at acquisition cost less depreciation and potential impairment losses. Subsequent costs are included in the carrying amount when they can be measured reliably, and there is an economic benefit to the company.

Significant leasehold improvements are included in the asset's carrying amount or are separated as a separate asset when it is probable that they will be economically useful in the future and the costs incurred can be distinguished from normal repair and maintenance costs.

Buildings and structures, machinery and equipment as well as other tangible assets are depreciated over their useful lives. Useful lives are based on estimates of the period over which the assets will generate revenue. Depreciation is recognized on a straight-line basis based on the cost of the assets and estimated useful lives. Impairment tests for depreciable non-current assets are performed if there are indications of impairment at the balance sheet date. Depreciation is not recognized on land, except for leased land, as the useful life is considered indefinite.

Useful lives of the asset's categories are:

- Buildings and structures 30 years
- Machinery and equipment 3-7 years
- Right-of-use assets (IFRS 16 Leases) 3-15 years
- Renewal and refurbishment investments in lease premises 5-10 years

The Group estimates on each balance sheet date, if there is any indication that an asset may be impaired. If such indication exists, the relevant asset is tested for impairment. The impairment test estimates the asset's recoverable amount.

The recoverable amount is higher of an asset's fair value after selling costs and its value in use. If the recoverable amount cannot be determined on the asset level, the need for impairment is estimated at the level of the smallest cash generating unit that is for its main parts independent from other units and has cash flows that can be separated from the cash flows of other similar units.

# 3.6 Leases

The Group has leased store premises and office and warehouse spaces with lease agreements that are included in the scope of IFRS 16 Leases. In addition, the Group has leased parking spaces, vehicles, IT and other equipment and advertising spaces. The right-of-use asset classified as land and water consists of lease agreement for the land of the acquired pet food factory. The lease agreements have a fixed term, or they can be terminated with a notice. The Group does not have service agreements containing commodities that should be recognized as right-of-use assets under IFRS 16.

#### **Accounting principles**

#### **Right-of-use assets**

Musti Group recognizes a right-of-use asset and a lease liability on the date when the agreement comes into effect, excluding short-term lease agreements and leases of low value assets (see the next page).

The right-of-use asset is initially measured at cost, and it includes the initial valuation of the lease liability, the lease amounts paid by the date when the agreement comes into effect net of any incentives received in connection with the lease agreement, any initial direct costs incurred to Musti Group and an estimate on costs that will incur to Musti Group from reversal and removal of the asset or the remediation of the premises to the condition defined in the lease agreement.

#### Lease liability

Musti Group determines the value of the lease liability on the date when the lease agreement comes into effect. The value of the lease liability includes payments that have not been paid on the date when the lease agreement comes into effect, including fixed payments, variable rents linked to an index or a price level, execution price of an call option, if it is reasonably certain that Musti Group will exercise the option, and payment of sanctions resulting from termination of the lease, if the term of the lease takes into account that Musti Group will exercise the option to terminate the lease.

Musti Group uses the minimum rents specified in the lease agreement for estimating the fixed payments. The non-lease components are separated from the lease payments when they can be determined reliably. Musti Group also has lease agreements that include variable payments determined based on net sales. Only minimum payments have been included in the lease liability for such agreements, and variable payments based on the net sales are measured as a cost in the profit and loss statement for the period when they incur.

Lease liability is remeasured when the lease term or lease payments are amended. Musti Group uses the interest rate for additional loans for determining the interest rate of the lease liability, as no internal interest rates for the lease agreements are available.

#### Short-term agreements and leases of low value assets

Musti Group recognizes in its profit and loss statement any lease payments on short-term leases with a term of 12 months or less, as well as on lease agreements where leased asset is of low value. Leases for low value assets are agreements where the leased asset would cost less than EUR 5,000 if it were purchased as new. The expenses from such agreements are presented in this Note below.

#### Sublease agreements

Musti Group has subleased intra-group commodities relating to store premises and fixtures. They have no impact on the consolidated figures.

#### Accounting estimates and management judgment

The management uses judgement for estimating the term of lease agreements with an option for extension, termination or acquisition. When Musti Group is reasonably certain that the option for extension, termination or acquisition will be exercised, the option is considered in the determination of the lease period. If the exercise of the option is uncertain, the option is not included in the determination of the lease term, right-of-use asset or lease liability.

The management uses judgement for estimating the term of lease agreements in effect until further notice. The management's estimates are based on the company's strategic situation and market conditions, as well the costs that would incur if the leased commodity would be replaced by another commodity.

Determination of the interest rate for additional credit also requires management's judgement. The interest rate for additional credit is determined based on the Group's financing agreements considering the fluctuation of risk-free interest in each country. The company applies single discounting rate for the portfolio comprising lease agreements with similar characteristics.

The tables set forth the amounts of right-of-use assets in the balance sheet and their impact on the profit and loss statement.

Interest expenses from lease liability *	-3,676	-2,334
Total	-39,257	-27,654

\* Included in the Note for financial expenses, see Note 5.4 Financial income and expenses

Repayments of lease liabilities in the financing cash flow amounted to EUR 33,157 (24,427) thousand. The weighted average interest used in the calculation of interest expenses was 3.8% (2.9%).

# **4. NET WORKING CAPITAL**

This section describes the items included in the net working capital. Net working capital comprises inventory, trade and other receivables, as well as trade and other payables.

EUR thousand	31 Dec 2024	30 Sep 2023
Net working capital		
Inventories	66,455	58,385
Trade and other receivables	14,705	11,575
Trade and other payables	-68,153	-61,725
Excluding financial items in other liabilities	466	213
Total	13,472	8,448
Change of net working capital in the balance sheet	-5 024	13 897
Items that are not included in the change of net working capital as presented in the cash flow statement, with their impact included elsewhere in the cash flow statement *	-7 567	804
Change of net working capital in the cash flow statement **	-12 591	14 700

\* The major items are related to business combinations.

\*\* An increase in the net working capital decreases the cash flow, and a decrease in the net working capital increases the cash flow.

# **4.1 Inventories**

The Group's inventory mainly consists of purchased pet food and other products. The Group's production activities are carried out at the wholly owned pet food factory Premium Pet Food Suomi Oy in Lieto, Finland. At the end of the financial year, the inventory of the factory amounted to EUR 2.3 (1.7) million. Consolidated inventories of Pet City amounted to EUR 3.7 million at the year-end.

# Accounting principles

Musti Group's inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less direct costs necessary to make the sale.

The acquisition cost of inventory is determined using the FIFO method. The acquisition cost comprises all costs incurred from delivering the inventory to the location and condition at time of the review.

Inventory is recognized as a cost for the same period when the corresponding sales is recognized. Impairment and obsolescence of inventory are recorded as costs at the time they incur. In addition, Musti Group records continuously a provision for losses on the inventory.

A possible reversal of a write-down is recognized in the period in which the change in value is recognized.

#### **Accounting estimates**

The Group regularly reviews inventories for obsolescence and turnover, and for possible reduction of net realizable value below cost and records an impairment as necessary.

#### Inventories

EUR thousand	31 Dec 2024	30 Sep 2023

The amount of inventories recognized as an expense		
during the period	330,378	242,117

80

# 4.2 Trade and other receivables

Trade and other receivables comprise trade receivables, other receivables (mainly Value Added Tax receivables) and deferred receivables. Income tax receivables are presented as a separate item in the balance sheet.

Payment terms of trade receivables vary according to the customer type and credit rating. In the online stores, the customers pay their purchases in advance. Impairment of trade and other receivables, as well as the Group's exposure to credit risk are described in the Note 5.1.

#### **Accounting principles**

Trade receivables are receivables resulting from selling products or providing services to customers in the ordinary course of business. Receivables that are expected to be paid within one year from the end of the financial year are classified as current assets. Otherwise, they are presented as non-current assets. Trade receivables usually fall due within 14 or 30 days, and as such, all of them are classified as current assets. Note 5.1 describes principles applied to impairment of trade and other receivables, as well as other accounting principles applied to them.

Other receivables mainly comprise prepayments and accrued income generated in the ordinary course of the Group's business.

The Group's receivables are financial assets not included in the derivatives with fixed or determined payments that are not quoted on active markets. They are included in the current assets, except for items maturing over 12 months after the end of the reporting period. Group's receivables consist of 'Trade and other receivables' and 'Cash and cash equivalents'.

The table below set forth the items included in the trade and other receivables:

# Trade and other receivables

EUR thousand	31 Dec 2024	30 Sep 2023
Trade receivables *	5,723	6,050
Prepayments and accrued income	3,815	4,132
Other receivables	5,167	1,393
Total	14,705	11,575

\* Credit card receivables are included in the trade receivables.

Of the trade receivables, a total of EUR 35 thousand has been recognized as a credit loss in the statement of profit and loss in 2024. During 2023, the recognized credit loss in the statement of profit and loss was EUR 13 thousand.

The credit loss risk is described in more detail in the Note 5.1 Financial risk management.

# 4.3 Trade and other payables

#### **Accounting principles**

Trade payables are payment obligations towards suppliers and service providers arising from products and services acquired in the ordinary course of business. Trade payables are classified as current liabilities if they fall due for payment within one year from the balance sheet date. Trade payables are initially measured at fair value, and subsequently at amortized cost using the effective interest rate method. Trade and other payables are classified as other financial liabilities and measured at amortized cost.

Customers are entitled to return their purchases within 14 days in Finland and Baltics, and within 30 days in Sweden and Norway. For products sold, that have a repayment period at the end of the financial year, an obligation is recorded as a corresponding contractual liability. Contractual liability includes all costs incurred in settling an existing obligation. The management estimates the amount of this liability based on previous claims and any recent developments indicating that the number of claims may differ from the previous claims in the future. For online sales, products in transit result in a contractual liability.

#### Accounting estimates

Determination of the liability resulting from the right to return products involves uncertainty, as the actual amount of returned goods may differ from the estimates. Estimates and assumptions are reviewed quarterly. Differences between estimated and actual product returns may impact the amount of future contractual liabilities recorded, in accrued expenses.

82

The tables below set forth items included in trade and other payables:

# Trade and other payables

EUR thousand	31 Dec 2024	30 Sep 2023
Trade payables	31,300	35,958
Advances received	612	287
Other liabilities	13,317	11,553
Accrued expenses	22,925	13,927
Total	68,153	61,725

# Material items included in accrued expenses

EUR thousand	31 Dec 2024	30 Sep 2023
Personnel related costs	13,984	10,050
Accrued interests	466	213
Other items	8,475	3,664
Total	22,925	13,927

# Material items included in other liabilities

EUR thousand	31 Dec 2024	30 Sep 2023
VAT liabilities	8,234	7,640
Payroll taxes	3,029	2,198
Loyalty program	2,016	1,546
Other items	37	169
Total	13,317	11,553

Trade and other payables comprise trade payables, other payables, advance payments, and accrued expenses incurring in the ordinary course of business of the Group.

Contractual liabilities comprise rights to return products, as well as products in transit.

The valuation and revenue recognition of the loyalty program requires management's judgment, particularly in determining the fair value of bonuses and the expiration of bonuses. The bonus liability consists of bonuses or stamp card discounts accrued to the loyal customer account (see Note 2.1 Segment reporting and net sales) less the estimated expiration date of the bonuses or discounts based on historical information.

# **5. CAPITAL STRUCTURE AND FINANCIAL INSTRUMENTS**

This Note describes Musti Group's exposure to financial risks, how these risks may impact Musti Group's financial results and how the management identifies and mitigates exposures

# **5.1 Financial risk management**

The purpose of the risk management is to ensure access to cost efficient funding and to decrease the negative impacts on the Group's profit and balance sheet caused by financial markets.

The financial risk management of the Group is governed by the Treasury Policy. The Chief Financial Officer presents the policy to the Board of Directors for approval. The implementation of the policy including funding, identification of exposures and hedging is delegated to the Group Treasurer.

#### Foreign exchange rate risk

Foreign exchange risk is defined as the uncertainty in cash flows, equity and financial performance arising from currency exchange rate volatility.

The Group is subject to foreign exchange rate risk arising from subsidiary financing, commercial cash flows and intra-group invoicing. The Group's most significant transaction currency risks arise from the Swedish Krona (SEK), Norwegian Krone (NOK), the US dollar (USD) and the British Pound (GBP).

#### **Transaction risk**

Transaction risk arises from commercial cashflows in foreign denominated currency (purchases and sales) and balance sheet items in foreign denominated currency (such as loans, deposits, and interest flows).

Forecasted commercial cash flows are hedged up to 12 months in advance. Finnish and Swedish subsidiaries have hedged forecasted USD and GBP outflows using currency derivative agreements. Additionally, sales denominated in NOK and purchases in EUR have been hedged in one of the Swedish subsidiaries. Significant strengthening of the USD and GBP in relation to EUR and SEK and weakening of the NOK in relation to SEK has a negative impact on the value of the forecasted cashflows.

Intra-group funding is granted in local currency of the subsidiary and is fully hedged with currency forward agreements excluding loans classified as net investments in foreign subsidiaries.

The foreign currency positions (in euros) of the segments at the end of the financial year are represented in the tables below. New Markets segment did not have any foreign currency positions at the year-end.

Corporate Governance

Assuming local currency to depreciate 10% against all other currencies, the impact would be the same magnitude but opposite. The sensitivity analysis as required by IFRS 7, includes financial instruments, such as trade and other receivables, trade and other payables, interest-bearing liabilities, deposits, non-current receivables, cash and cash equivalents and derivative financial instruments.

The following items related to exchange rates were recognized for the period through profit and loss:

EUR thousand	1 Oct 2023 - 31 Dec 2024	1 Oct 2022 - 30 Sep 2023
Items recognised through profit and loss		
Net exchange rate gains/losses included in the		
financial income/expenses	345	-720
Exchange rate gains/losses recognised in the result		
for the period, total (net)	345	-720

#### **Translation risk**

Translation risk arises when the currency denominated income and balance sheet items of group companies located outside the euro area are consolidated into euro. The most significant translation risk currencies are the Swedish krona (SEK) and the Norwegian krone (NOK). As of 31 December 2024, the total non-EUR denominated equity, goodwill and fair value step up of the subsidiaries was EUR 110.2 (95.0) million. In addition, the group had intra-group loans classified as net investments amounting to EUR 38.5 (38.4) million.

Musti Group is currently not hedging any translation exposure.

#### **Interest rate risk**

Changes in interest rates impact the average interest rate of the Group's loan portfolio, financial expenditure and hence the profitability of the group. The Group is currently hedging interest rate risk using interest rate derivatives.

At the end of the financial year 2024, interest-bearing financial assets were EUR 0 (0) thousand and interest-bearing liabilities EUR 200 (162) million. 77% (66%) of the interest-bearing liabilities are denominated in euros. For all interest-bearing liabilities, the ratio of fixed rate paying liabilities in relation to all interest-bearing liabilities was 66% (69%). Excluding leasing agreements, the ratio of fixed rate paying liabilities was 34% (38%).

Sensitivity of interest expenses has been calculated by assuming a one-off, +1% (100 basis points) increase in the interest rates of interest-bearing financial liabilities and assuming no change in the net debt during the year. The calculated impact on the company's interest expenses is EUR 0.5 (0.5) million.

#### **Credit risk**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fail to meet its contractual obligations. The Group's credit risks arise principally from trade receivables and the market value of financial derivatives. The Group's customer base is very diversified, and the Group does not have significant credit risk concentrations related to trade receivables.

The Group companies analyse solvency of new invoicing customers locally. Payment methods mitigating credit risk, such as advance payments, are applied to customers with high risk. The maximum exposure to credit risk corresponds to the book values of the financial assets presented below.

The procedure under IFRS 9 is applied for credit loss provisions where the amount of the provision corresponds to the expected credit losses over the whole lifetime of the receivable. Credit loss provision on the expected credit losses are recognized based on the customers' payment history and expectations on the credit losses. The Group's trade receivables have short maturities, and the time value of the money does not have significant impact when estimating the amount expected of credit losses.

Counterparty risk relating to financial assets and derivatives is mitigated by diversification of exposures between pre-approved, high creditworthy counterparties. ISDA Master agreements have been signed with counterparties when transacting in derivative agreements. The Chief Financial Officer and the Group Treasurer review annually the creditworthiness of financial counterparties using a framework considering credit rating (Moody's, S&P) and sustainability rating (Sustainalytics ESG).

The groups other receivables do not contain impaired or delayed items. Based on the credit history of other groups, the receivables will be paid when they fall due. The Group has no guarantee for these receivables

#### Liquidity and refinancing risk

Liquidity risk refers to the risk of the Group not being able to fulfil its payment obligations and refinancing risk refers to the risk of the Group not being able to refinance its maturing liabilities.

The Treasury Policy governs the mitigation of refinancing and liquidity risk by setting requirements on refinancing, the amount of committed credit facilities and the level of liquid assets to be kept available. Group Treasury monitors and forecasts the short- and long-term needs of the Group and ensures that sufficient liquidity and credit facilities are available.

As of 31 December 2024, the Group's liquidity and refinancing position was good. The amount of cash and cash equivalents was EUR 11.8 (22.0) million and the Group had EUR 100 million of undrawn revolving credit facilities (maturing in 2027) in place. Additionally, the Group had a 5 million EUR bank overdraft, unutilized term facilities of EUR 15 million, and a EUR 50 million commercial paper program of which EUR 7.5 million was in use.

Musti Group signed a 3+1-year Facilities Agreement with Danske Bank, OP Corporate Bank plc and Swedbank AB (Publ) on 28th August 2024. The Facilities Agreement consists of a EUR 110 million Term Facility, a EUR 100 million Revolving Credit Facility and an uncommitted Accordion Facility of EUR 60 million. The proceeds were used to refinance existing indebtedness and to support the company achieving long-term strategic goals. The Facilities Agreement matures in August 2027 and with the agreed 1-year extension option, final maturity reaches August 2028.

The Group's financing agreements contain covenants relating to the net debt to EBITDA (leverage) ratio. Violation of covenant terms may increase financial costs or lead to loan termination. The covenants are reviewed and reported to the bank's quarterly. During the financial year 2024, all quarterly covenant conditions were met.

The table below sets forth the Group's financial liabilities under the relevant maturity groups based on the time remaining until the contractual maturity as at the balance sheet date. The figures presented in the table are contractual undiscounted amounts.

The Group's loans from credit institutions on 31 December 2024 amounted to EUR 94.7 (69.9) million. The non-current loans from credit institutions mature in August 2027 and with the agreed 1-year extension option, final maturity reaches August 2028.

# Fair value hierarchy

#### Level 1

Quoted unadjusted prices at the balance sheet date in active markets. The market prices are readily and regularly available from an exchange, dealer, broker, market information service system, pricing service or regulatory agency. The quoted market price used for financial assets is the current bid price. Level 1 financial instruments include investments in funds classified as financial instruments at fair value through profit and loss. Musti Group does not have Level 1 financial instruments.

#### Level 2

The fair value of financial instruments in Level 2 is determined using valuation techniques. These techniques utilize observable market data readily and regularly available from an exchange, dealer, broker, market information service system, pricing service or regulatory agency. Musti Group has classified derivatives at fair value according to the Level 2.

#### Level 3

RA financial instrument is categorized into Level 3 if the calculation of the fair value cannot be based on observable market data. Musti Group has classified earn-out liabilities on level 3 of the fair value hierarchy.

# **5.2 Financial assets and liabilities**

#### **Accounting principles**

Musti Group classifies financial assets and liabilities according to IFRS 9 based on the cash flow properties of the contracts related to them and their original purpose of use in line with the business model at the time of the acquisition. The classification is changed only if the business model applied in the investment activities is amended. Financial assets or liabilities are presented as a non-current item, if the remaining maturity is over 12 months from the end of the period, and as a current item if the remaining maturity is under 12 months from the end of period. Financial assets and liabilities are classified as follows:

Under IFRS 9, financial assets are classified into the following categories:

I. financial assets at amortized cost

II. financial assets at fair value through profit and loss

III. financial assets at fair value through other comprehensive income

# **Financial assets**

# Financial assets and amortized cost

Financial assets are classified as financial assets at amortized cost if the following criteria are met:

I. the financial asset is held to generate cash flows based on the business mode; and

II. the cash flows are contractual capital returns and interest accrued on the capital.

Financial assets at amortized cost are valued using the effective interest rate method.

Impairment is considered in the valuation. Gains and losses are recognized though profit and loss when the financial asset is reclassified or changed or its value decreases. Interest income is recognized in finance income.

Financial assets at amortized cost include term deposits, interest-bearing loans and other receivables, trade receivables and non-interest-bearing receivables.

Expected credit loss under IFRS 9 impacts the valuation of financial assets at amortized cost. Musti Group applies to the valuation of trade receivables the simplified model under IFRS 9 where a provision for credit losses is recognized in the trade receivables based on the expected credit losses. See Note 5.1 Financial risk management.

#### Financial assets at fair value through profit and loss

Financial assets at fair value through profit and loss are financial assets acquired for trading purposes.

Financial assets at fair value through profit and loss are derivatives not eligible for hedge accounting. Changes in fair value, as well as profit and loss in connection derecognition, are presented in the profit and loss statement.

#### Financial assets at fair value through other comprehensive income

Financial assets are classified as financial assets at fair value through other comprehensive income, if the following criteria are met:

I. according to the business model, the financial asset is held to generate cash flows based on a contract or it is available for sale; and

II. the cash flows are contractual capital returns and interest accrued on the capital.

#### **Financial liabilities**

Under IFRS 9, financial liabilities are classified into the following categories:

I. financial liabilities at amortized cost

II. financial liabilities at fair value through profit and loss

#### **Financial liabilities at amortized cost**

Musti Group's loans from financial institutions, commercial papers and trade and other payables are recognized at the time on acquisition at fair value net of transaction costs. Loans are subsequently measured using the effective interest rate method. The interest expenses of the loans are recorded in the profit and loss statement. Trade and other payables are non-interest-bearing current unpaid payables.

#### Financial liabilities at fair value through profit and loss

Financial liabilities at fair value through profit and loss are financial liabilities acquired for trading purposes.

Financial liabilities measured at fair value through profit and loss are derivatives not eligible for hedge accounting. Changes in fair value, as well as profit and loss in connection derecognition, are presented in the profit and loss statement.

#### **Liquid funds**

Deposits with a maturity of up to 3 months from the year end are classified as liquid funds and are measured at amortized cost. Cash and cash equivalents include readily available cash and bank deposits, as well as fixed-term deposits.

Liquid funds are regularly assessed for impairment, but the risk is limited due to their high credit rating and short maturity.

# Liquid funds

EUR thousand	31 Dec 2024	30 Sep 2023
Cash and cash equivalents	11,829	21,954

#### **Derivative financial instruments**

#### **Accounting principles**

Derivatives are initially recorded at their fair value on the date of the contract, and they are subsequently valued at their fair value. Derivatives are classified as instruments held for trading and recorded at fair value through profit and loss.

The Group utilizes derivatives for hedging operative exchange risks and interest rate risk. The company does not apply hedge accounting.

# The nominal and fair values of the derivatives at the end of the financial period:

# **5.3 Commitments and contingencies**

This Note presents information on items not included in calculations when preparing the financial statements, as they do not satisfy accounting requirements yet. These items include guarantees, pledges and contingent liabilities.

#### **Compliance with covenant conditions**

Musti Group has EUR 210 million financing agreement that contains a covenant relating to the Group's leverage (net debt to EBITDA) which shall not exceed a ratio of 3.75. The covenant needs to be met constantly, and it is tested on a quarterly basis. The covenant is calculated based on the calculation method agreed on the financing agreement. Violation of the covenant terms may lead to termination of the loans. The covenants have been fulfilled during the financial years 2024 and 2023.

#### **Other commitments**

During the periods presented in the financial statements, Musti Group has not been involved in legal proceedings, arbitration or administrative proceedings that could have a significant impact on the Group's financial position or profitability.

EUR thousand	31 Dec 2024	30 Sep 2023
Other guarantees given on own behalf		
Guarantees relating to rental payments	3,665	3,846
Other commitments	23	23

EUR thousand	31 Dec 2024	30 Sep 2023
Other commitments		
Lease liabilities for leases not recognised in the		
balance sheet	750	1,939
Total	750	1,939

Lease liabilities not recognized in the balance sheet includes the nominal amount of low-value and short-term lease liabilities (refer to Note 3.6) and the liability for agreements that will enter into force in the future.

93

# 5.4 Financial income and expenses

This Note presents the Group's financial income and expenses. The Group has entered into interest rate swap agreements to protect itself from the changes of interest of bank loans with variable interest rates, as well as exchange rate hedges for its purchases in US Dollar and British Pound in Finland and Sweden.

EUR thousand	1 Oct 2023 - 31 Dec 2024	1 Oct 2022 - 30 Sep 2023	
Financial income			
Interest income	2,771	1,209	
Exchange gains	1,996	1,398	
Exchange gains from derivatives	4,230	2,237	
Gain from changes in the fair value of derivatives	1,076	1,651	
Other financial income	22	26	
Total	10,096	6,522	
Financial expenses			
Interest expenses on loans valued to amortised cost	-6,122	-3,027	
Interest expenses from lease liability	-3,676	-2,334	
Exchange losses	-3,118	-2,999	
Exchange losses from derivatives	-2,763	-1,356	
Loss from changes in the fair value of derivatives	-1,731	-600	
Other financial expenses	-751	-290	
Total	-18,161	-10,605	
Financial income and expenses, net	-8,066	-4,083	

The Group's interest income and other financial income mainly relate to exchange rate gains and interest income and changes in the fair value of derivatives. Financial expenses mainly relate to loans from credit institutions and lease liabilities, and changes in the fair value of derivatives and exchange rate losses.

# **5.5 Capital Management**

The company's Board of Directors is responsible for the capital management strategy. The aim of capital management is to maintain sufficient equity ratio and to comply with requirements set for leverage in financing agreements. Capital sources include operating cash flows, equity financing from shareholders and external loans. Covenants included in financing agreements place requirements relating to the ratio of net debt to EBITDA (leverage). Other terms and conditions on external capital are not applied to the Group. In capital management, the Group's equity consists of equity and liabilities as presented in the balance sheet.

With capital management, the Group aims to safeguard its continuous operations to provide yield to the shareholders and increase the value of the capital that they have invested. The Group monitors the adjusted EBITA, EBITA margin and the net debt ratio to last twelve months adjusted EBITDA.

# 5.6 Equity

This Note describes items included in the equity of Musti Group.

# Accounting principle

The Group's equity includes instruments that evidences a residual interest in the assets of an entity after deducting all its liabilities and contains no contractual obligation for the issuer to deliver cash or other financial asset to another entity. Costs that relate to the issue or repurchase of own equity instruments are recognized as a deduction in equity.

All company shares are reported as share capital. Any repurchase of its own shares by the company is deducted from equity.

The total equity consists of the share capital, the invested unrestricted equity reserve, translation differences and retained earnings.

#### **Share capital**

On 31 December 2024, the share capital of Musti Group amounted to EUR 11,001,853.68 and the number of shares was 33,535,453. The company has one share class. Each share entitles its holder to one vote at the general meeting and an equal dividend. The company holds 147,566 own shares.

The Annual General Meeting held on 31 January 2024 authorized the Board of Directors to decide on the repurchase of the company's own shares and/or on the acceptance as pledge of the company's own shares as follows. The number of own shares to be repurchased and/or accepted as pledge based on this authorization shall not exceed 3,185,000 shares in total, which corresponds to approximately 9.5 per cent of all the shares in the company. However, the company together with its subsidiaries cannot at any moment own and/or hold as pledge more than 10 per cent of all the shares in the company.

Own shares can be repurchased only using the unrestricted equity of the company at a price formed in public trading on the date of the repurchase or otherwise at a price determined by the markets. The Board of Directors decides on all other matters related to the repurchase and/or acceptance as pledge of own shares. Own shares can be repurchased using, inter alia, derivatives. Own shares can be repurchased otherwise than in proportion to the shareholdings of the shareholders (directed repurchase).

This authorization cancelled the authorization given by the Annual General Meeting held on 30 January 2023 to decide on the repurchase of the company's own shares and/or to accept the company's own shares as pledge. The authorization is effective until the next Annual General Meeting, however, no longer than until 31 March 2025.

The Annual General Meeting also authorized the Board of Directors to decide on the issuance of shares as well as the issuance of special rights entitling to shares referred to in chapter 10 section 1 of the Finnish Companies Act as follows. The number of shares to be issued based on this authorization shall not exceed 3,185,000 shares, which corresponds to approximately 9.5 per cent of all the shares in the company. The authorization covers both the issuance of new shares as well as the transfer of treasury shares held by the company.

The Board of Directors decides on all the conditions of the issuance of shares and of special rights entitling to shares. The issuance of shares and of special rights entitling to shares may be carried out in deviation from the shareholders' pre-emptive rights (directed issue). This authorization cancelled the authorization given by the Annual General Meeting held on 30 January 2023 to decide on the issuance of shares as well as on the issuance of special rights entitling to shares. The authorization is effective until the next Annual General Meeting, however, no longer than until 31 March 2025.

#### **Earnings per share**

The basic earnings per share figure is calculated by dividing the result for the financial year attributable to the parent company's shareholders by the weighted average number of shares outstanding during the financial year. When calculating the earnings per share adjusted by dilution, the weighted average of the number of shares takes into account the diluting effect resulting from changing into shares all potentially diluting shares.

# **Earnings per share**

	31 Dec 2024	30 Sep 2023
Earnings per share, basic		
Net profit attributable to equity owners of the parent company, EUR thousand	6,700	26,448
Weighted average number of shares	33,387,987	33,374,823
Basic earnings per share, EUR	0.20	0.79

Weighted average number of shares for diluted earnings per share	33,546,147	33,598,167
Diluted earnings per share, EUR	0.20	0.79

# **Dividend and profit distribution**

The parent company's distributable funds total EUR 128,111,254.57 of which the result for the financial year is EUR -2,916,649.09. The Board of Directors proposes to the Annual General Meeting that no dividend will be paid for the financial year ended on 31 December 2024. For the financial year ended 30 September 2023 no dividend was distributed from the 2023 result.

# Musti Group plc's distributable funds

EUR thousand	31 Dec 2024
Retained earnings at the end of financial year	13,018
Unrestricted equity	123,349
Own shares	-5,340
Result for the financial year	-2,916
Distributable funds total	128,111

# Invested unrestricted equity reserve

Under the Finnish Companies Act, the subscription price of new shares is credited to the share capital, unless it is provided in the share issue resolution that it is to be credited in full or in part to the invested unrestricted equity reserve. Contributions to the reserve for invested unrestricted equity can also be made without share issues.

# **Translation differences**

Translation differences arising on the translation of subsidiaries' financial statements into euros are recognized in other comprehensive income and accumulated in equity.

# **6. OTHER NOTES**

# **6.1 Related party transactions**

Parties are considered to be related if one party has the ability to control or exercise significant influence on the other party, or if the parties exercise joint control in making financial and operating decisions. Musti Group's related parties include its subsidiaries, joint venture, Board of Directors and the members of the management team, including the CEO, as well as their family members and entities controlled by these individuals.

# The following transactions were carried out with joint ventures:

EUR thousand	31 Dec 2024	30 Sep 2023
Purchases of goods and services	0	4,638
Receivables	0	0
Payables	0	0
Guarantees given	0	0

Related party transactions are executed with the arm's length principle, and their terms and conditions correspond to transactions carried out with independent parties.

During the comparative year, the Group had a joint venture Premium Pet Food Suomi Oy, of which the Group acquired the full ownership on 3rd of April 2023, and it became a fully owned subsidiary. Prior to the transaction, Musti Group held 49.2% of the shares in the company, therefore, transactions and balances with Premium Pet Food Suomi Oy have been included in the presentation of related party transactions. From 3rd of April 2023 onwards the intercompany transactions with Premium Pet Food Suomi Oy are not included anymore in the related party transactions table presented above.

The management's remuneration is presented in the table below. No loans have been granted to the management, and no other transactions have been conducted with the management

#### **Management compensation**

# The CEO and management team remuneration

Inka Mero (until 12 April 2024)	40	40
Total	216	240

The remuneration of the Board of the Directors is presented on accrual basis. According to the decision of the 2024 Annual General Meeting, the annual fees paid to the Board members were: Chairman of the Board EUR 65,000 and other Board members EUR 35,000. The annual fees paid to the members of the Committees were: Chairman of the Committee EUR 7,500 and other Committee members EUR 5,000.

# 6.2 Taxes

#### **Income taxes**

#### **Accounting principles**

The taxes recognized in the consolidated income statement include the Group companies' taxes on current net profits on an accrual basis, prior period tax adjustments and changes in deferred taxes. The Group companies' taxes have been calculated from the taxable income of each company determined by local jurisdiction. The country of registration of each group company is presented in Note 1.4 Group information.

# **Income tax expenses**

EUR thousand	1 Oct 2023 - 31 Dec 2024	1 Oct 2022 - 30 Sep 2023
Current tax:		
Current tax on profits for the year	-1,843	-3,934
Taxes for prior years	-112	-172

Taxes for prior years	-112	-172
Temporary differences in taxation	831	-447
Other items	-77	-92
Taxes in income statement	-1,433	-7,229

#### **Deferred tax assets and liabilities**

#### **Accounting policy**

Deferred tax assets and liabilities are recognized on all temporary differences arising between the tax bases and carrying amounts of assets and liabilities. The most significant temporary differences arise from right-of-use assets and corresponding liabilities. Deferred tax liability has not been calculated on goodwill insofar as goodwill is not tax deductible. Deferred tax on subsidiaries' undistributed earnings is not recognized unless a distribution of earnings is probable, causing tax implications. A deferred income tax asset is recognized to the extent that it is probable that it can be utilized against future taxable income.

Deferred tax has been determined using the tax rates enacted at the balance sheet date, and as the rates changed, at the known new rate. A deferred income tax asset is recognized to the extent that it is probable that it can be utilized against future taxable income. The Group's deferred income tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority. Deferred taxes relating to IFRS 16 right-of-use assets and lease liabilities have been netted on the consolidated balance sheet but in the specification of the changes below, the gross amounts to the deferred taxes have been presented.

#### Determinations based on the management's judgement

Determining to which extent deferred tax assets can be recognized requires management's judgement. The management of Musti Group has used judgement when determining if deferred tax asset is recognized for an unused tax loss carry forward or unused tax credits. Recognition is done only to the extent that it is probable that future taxable profits will be available against which the loss or credit carry forward can be utilized. The Group estimates positions taken in tax return with respect to situations in which applicable tax regulation is subject to interpretation. If necessary, the booked amounts are adjusted to correspond to amounts expected to be paid to the tax authorities.

# Notes to Musti Group plc financial statements

# 7.1 Accounting principles

# **Basis of preparation**

Musti Group plc is the parent company of Musti Group, domiciled in Helsinki, Finland. The financial statements of Musti Group plc have been prepared in euros in accordance with the relevant acts and regulations in force in Finland (Finnish Accounting Standards, FAS).

When preparing the financial statements, the management of the company needs to make estimates and assumptions that affects the financial statements valuations. Actual figures may differ from the estimates made.

The company's financial year was extended to 15 months, and it covers the period from 1 October 2023 - 31 December 2024. The financial year was from 1 October to 30 September prior to the change. Due to the extended financial year, the amounts presented in the parent company financial statements are not entirely comparable. As Musti Group has been a part of Sonae Group since March 2024, the financial year was aligned with the parent group.

#### Valuation and accruing principles and methods

#### Non-current assets

Investments in subsidiaries are recognized either at acquisition cost or at net realizable value if the value of the investments has declined permanently.

#### Pension plans

The statutory pension liability of the Finnish personnel and any additional pensions have been arranged through a pension insurance company.

#### **Income tax expense**

Income tax includes tax calculated on the profit for the current financial year as well as tax adjustments for previous financial years. No deferred taxes have been booked in the parent company.

101

#### **Foreign currency items**

Foreign currency business transactions are booked using the exchange rate of the transaction date. At the end of the fiscal year all open foreign currency transactions are valued using the exchange rate of the closing date.

#### **Financial instruments**

Financial instruments are valued at fair value in accordance with the chapter 5, paragraph 2a of the Finnish Accounting Act. The company classifies financial instruments based on the cash flow properties of the contracts related to them and their original purpose of use in line with the business model at the time of the acquisition. The classification is changed only if the business model applied in the investment activities is amended. Financial assets or liabilities are presented as a non-current item, if the remaining maturity is over 12 months from the end of the period, and as a current item if the remaining maturity is under 12 months from the end of period. Financial assets and liabilities are classified as follows:

Financial assets are classified into the following categories:

I. financial assets at amortized cost

II. financial assets at fair value through profit and loss

#### **Financial assets**

#### Financial assets at amortized cost

Financial assets are classified as financial assets at amortized cost if the following criteria are met:

I. the financial asset is held to generate cash flows based on the business mode; and

II. the cash flows are contractual capital returns and interest accrued on the capital.

Financial assets at amortized cost are valued using the effective interest rate method. Impairment is considered in the valuation. Gains and losses are recognized though profit and loss when the financial asset is reclassified or changed or its value decreases. Interest income is recognized in finance income.

Financial assets at amortized cost include term deposits, interest-bearing loans and other receivables, trade receivables and non-interest-bearing receivables.

#### Financial assets at fair value through profit and loss

Financial assets at fair value through profit and loss are financial assets acquired for trading purposes.

Financial assets at fair value through profit and loss are derivatives not eligible for hedge accounting. Changes in fair value, as well as profit and loss in connection derecognition, are presented in the profit and loss statement.

#### **Financial liabilities**

Financial liabilities are classified into the following categories:

- I. financial liabilities at amortized cost
- II. financial liabilities at fair value through profit and loss

#### **Financial liabilities at amortized cost**

Musti Group's loans from financial institutions and trade and other payables are recognized at the time on acquisition at fair value net of transaction costs. Loans are subsequently measured using the effective interest rate method. The interest expenses of the loans are recorded in the profit and loss statement. Trade and other payables are non-interest-bearing current unpaid payables.

#### Financial liabilities at fair value through profit and loss

Financial liabilities at fair value through profit and loss are financial liabilities acquired for trading purposes.

Financial liabilities measured at fair value through profit and loss are derivatives not eligible for hedge accounting. Changes in fair value, as well as profit and loss in connection derecognition, are presented in the profit and loss statement.

Derivatives are initially recorded at their fair value on the date of the contract, and they are subsequently valued at their fair value. Derivatives a classified as instruments held for trading and recorded at fair value through profit and loss.

The Company utilizes derivatives for hedging interest rate risk. The company does not apply hedge accounting.

# Level 1

Quoted unadjusted prices at the balance sheet date in active markets. The market prices are readily and regularly available from an exchange, dealer, broker, market information service system, pricing service or regulatory agency. The quoted market price used for financial assets is the current bid price. Level 1 financial instruments include investments in funds classified as financial instruments at fair value through profit and loss. Musti Group plc does not have Level 1 financial instruments.

# Level 2

The fair value of financial instruments in Level 2 is determined using valuation techniques. These techniques utilize observable market data readily and regularly available from an exchange, dealer, broker, market information service system, pricing service or regulatory agency. Musti Group plc has classified derivatives at fair value according to the Level 2.

### Level 3

A financial instrument is categorized into Level 3 if the calculation of the fair value cannot be based on observable market data. Musti Group plc does not have Level 3 financial instruments.

# Auditor's report (Translation of the Finnish original)

# To the Annual General Meeting of Musti Group Oyj

# **Report on the Audit of the Financial Statements**

#### Opinion

We have audited the financial statements of Musti Group Oyj (business identity code 2659161-1) for the year ended 31 December, 2024. The financial statements comprise the consolidated balance sheet, income statement, statement of comprehensive income, statement of changes in equity, statement of cash flows and notes, including material accounting policy information, as well as the parent company's balance sheet, income statement, statement of cash flows and notes.

#### In our opinion

- the consolidated financial statements give a true and fair view of the group's financial position, financial performance and cash flows in accordance with IFRS Accounting Standards as adopted by the EU.
- the financial statements give a true and fair view of the parent company's financial performance and financial position in accordance with the laws and regulations governing the preparation of financial statements in Finland and comply with statutory requirements.

Our opinion is consistent with the additional report submitted to the Audit Committee.

# **Basis for Opinion**

We conducted our audit in accordance with good auditing practice in Finland. Our responsibilities under good auditing practice are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We are independent of the parent company and of the group companies in accordance with the ethical requirements that are applicable in Finland and are relevant to our audit, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

In our best knowledge and understanding, the non-audit services that we have provided to the parent company and group companies are in compliance with laws and regulations applicable in Finland regarding these services, and we have not provided any prohibited non-audit services referred to in Article 5(1) of regulation (EU) 537/2014. The non-audit services that we have provided have been disclosed in note 2.3 to the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

We have also addressed the risk of management override of internal controls. This includes consideration of whether there was evidence of management bias that represented a risk of material misstatement due to fraud.

Board of Directors' Report Financial Statements

( 109

Key Audit Matter	How our audit addressed the Key Audit Matter	Key Audit Matter	How our audit addressed the Key Audit Matter	Key Audit Matter	How our audit addressed the Key Audit Matter
Valuation of Goodwill We refer to the notes 3.1, 3.2 and 3.3. The value of goodwill at the date of the financial statements amounted to 195.2 million euros, representing 44 % of total assets and 117 % of equity. Valuation of goodwill is based on management's estimates about the value-in-use calculations of cash generating units. There are a number of underlying assumptions used to determine the value-in-use of cash generating units, including the development of revenue and profitability as well as the discount rate applied on cash flows. The estimated value-in-use of cash generating units may vary significantly when the underlying assumptions change. Changes in the above-mentioned individual assumptions may result in an impairment of goodwill. The valuation of goodwill was a key audit matter because the assessment process includes judgment, and it is based on assumptions relating to market or economic conditions extending to the future and because the amount of goodwill was also a significant risk of material misstatement referred to in EU Regulation No 537/2014, point (c)	<ul> <li>To address the risk of material misstatement regarding the valuation of goodwill our audit procedures included among others:</li> <li>involving EY valuation specialists to assist us in evaluating the methodologies, impairment calculations and underlying assumptions applied by management in impairment testing;</li> <li>comparing the principles applied by management of assets;</li> <li>ensuring the mathematical accuracy of the impairment calculations; and</li> <li>comparing the key assumptions applied by management in the impairment tests to approved budgets and long-term forecasts, information available in external sources, as well as our independently calculated industry averages for example in the case of the weighted average cost of capital used in discounting cashflows.</li> <li>In addition, we compared the outcome of management's impairment tests to Musti Group Plc's market capitalization.</li> </ul>	Revenue Recognition We refer to the Group's accounting policies and the note 2.1. Musti Group's revenue is generated from sales of products and services in retail stores and online platforms as well as from sales to franchise stores. The Group's net sales amounted to 560.6 million euros. Revenue recognition was a key audit matter due to the high volume of transactions, the management judgement involved in accounting for right of return and loyalty club bonus, and the extensive network of stores. In addition, the Group focuses on revenue as a key performance measure which could create an incentive for revenue to be recognized before the control of goods or services has transferred to the customer. Revenue recognition was also a significant risk of material misstatement referred to in EU Regulation No 537/2014, point (c) of Article 10(2).	<ul> <li>To address the risk of material misstatement regarding revenue recognition our audit procedures included among others:</li> <li>assessing the Group's accounting policies over revenue recognition, including principles relating to right of return accounting and loyalty club bonuses in relation to applicable accounting standards;</li> <li>testing revenue, product returns, loyalty club bonuses and margins with data analytics;</li> <li>testing selected samples of sales transactions by comparing them to payments received;</li> <li>understanding the sales processes and reconciliation routines for cash and payment card transactions in selected retail stores;</li> <li>analyzing the timing of revenue recognition of online sales based on delivery lead times; and</li> <li>comparing selected accounts receivable balances to confirmations received from counterparties.</li> <li>We also assessed the Group's disclosures in respect of revenues.</li> </ul>	<ul> <li>Valuation of inventories We refer to the Group's accounting policies and the note 4.1.</li> <li>The total value of inventories at the date of the financial statements amounted to 66.5 million euros.</li> <li>Musti Group's inventories are valued at the lower of cost or net realizable value. Inventories are presented net of an impairment loss recognized for obsolete and slow-moving inventories.</li> <li>Valuation of inventories was a key audit matter because the carrying value of inventories is material to the financial statements and because valuation of inventories and the level of allowance for obsolete and slow-moving inventories requires management judgment relating to the future sales of the goods.</li> <li>Valuation of inventories was also a significant risk of material misstatement referred to in EU Regulation No 537/2014, point (c) of Article 10(2).</li> </ul>	To address the risk of material misstatement regarding valuation of inventories our audit procedures included among others: • assessing the Group's accounting policies regarding inventories, including compliance with applicable accounting standards; • attending physical stock takings in selected stores, central warehouses and factory in order to, among other things, observe the potential obsolescence of goods; • comparing unit prices of selected inventory items to latest purchase invoices and to sales prices; and • testing slow-moving inventory items as well as exceptional values in inventory accounting with data analytics. We also assessed the Group's disclosures in respect of inventory.

# **Responsibilities of the Board of Directors and the Managing Director for the Financial Statements**

The Board of Directors and the Managing Director are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards as adopted by the EU, and of financial statements that give a true and fair view in accordance with the laws and regulations governing the preparation of financial statements in Finland and comply with statutory requirements. The Board of Directors and the Managing Director are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors and the Managing Director are responsible for assessing the parent company's and the group's ability to continue as going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting. The financial statements are prepared using the going concern basis of accounting unless there is an intention to liquidate the parent company or the group or cease operations, or there is no realistic alternative but to do so.

# Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance on whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with good auditing practice will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with good auditing practice, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due
  to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
  a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
  involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the parent company's or the group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the Board of Directors' and the Managing Director's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the parent company's or the group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the parent company or the group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events so that the financial statements give a true and fair view.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

110

# **Other Reporting Requirements**

# Information on our audit engagement

We were first appointed as auditors by the Annual General Meeting on March 29th, 2018, and our appointment represents a total period of uninterrupted engagement of seven years. Musti Group Oyj has been a public interest entity (PIE) since February 13th, 2020.

# **Other information**

The Board of Directors and the Managing Director are responsible for the other information. The other information comprises the report of the Board of Directors and the information included in the Annual Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. With respect to report of the Board of Directors, our responsibility also includes considering whether the report of the Board of Directors has been prepared in compliance with the applicable provisions.

In our opinion, the information in the report of the Board of Directors is consistent with the information in the financial statements and the report of the Board of Directors has been prepared in compliance with the applicable provisions.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.
